#### Safety Precautions

- WARNING**—When using this product, basic precautions should always be taken, including:
1. Read all the instructions before using the product.
  2. Never store or use this product in temperatures of below 32°F(0°C) or above 113°F (45°C).
  3. Do not expose the device to moisture.

4. Do not exceed the output rating of the device. Overloading outputs above the rating may result in a risk or injury.
5. Do not use the device if it has been damaged or modified.
6. Damaged or modified batteries may exhibit unpredictable behaviour resulting in fire, explosion or injury.
7. Do not disassemble the device. For repairs, seek a qualified service professional. Incorrect reassembly may result in a risk of fire or injury.
8. Do not expose the device to fire or excessive temperature.
9. To reduce the risk of injury, close supervision is required when the product is used near children.
10. Ensure that qualified service professionals use only identical replacement parts to ensure product safety.

#### FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

**Warning:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### RF Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
