■ 10. FAQ

Q1: I can't find the keyboard name on iPad ?

A: 1. Please make sure you have opened the keyboard to ON status;  
2. Please press the "Go" button for 3 seconds till the indicator flashing rapidly;  
3. If you tried both 1 & 2 , then kindly reset the keyboard or the iPad.

Q2: Why can't I type in Spanish, French or other small languages ?

A: Our keyboard are standard US English version, if you want to type in small languages, first you need to upload the keyboard language in your iPad. (Must connected keyboard) Then you need to change the input to the correct language. "Settings-General-Keyboard-Keyboard-Add new keyboard."

Q3: Can I use the keyboard for Samsung tablet or smartphones ?

A: Though our keyboard case combo only for iPad 10th because of the cover, but if you want to use the keyboard for Other Tablets or Smartphones, Normal function are the same, just have a little difference for the shortcut keys and touchpad.

Q4: Why can't I use the touchpad ?

A: Please press "fn+shift+spacebar" to open or close the touchpad.

Q5: Why I press the caps to switch the languages ?

A: Please follow the below steps:  
Setting-General-Keyboard-Hardware keyboard-Turn off the Switches languages using Caps Lock.

RECYCLING

This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment. User has the choice to give his product to a competent recycling organization or to the retailer when he buys a new electrical or electronic equipment.

DC voltage

FC

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference.  
(2) This device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
-Reorient or relocate the receiving antenna.  
-Increase the separation between the equipment and receiver.  
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
-Consult the dealer or an experienced radio/TV technician for help.  
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
