Specification parameters

Product model	BHD-TW11
FCC ID	28CVD-BHD-TW11
Dimensions	62*42*24mm (2.44*1.69*0.95in)
Weight	Approx. 50g (1.76oz)
Battery type	Rechargeable lithium polymer battery
Charging input	DC 5V=1A
Battery capacity of earbuds	40mAh*2
Battery capacity of charging case	380mAh
Rated voltage	3.7V
Frequency response range	20Hz-20kHz
Charging time	Approx. 1.5h
Endurance	Approx. 20h
Endurance of single earbud	Approx. 5.5h (50% volume)
Operation range	<10 meters
Supported protocols	Headset / Handsfree / A2DP / AVRCP
Accessories	Earbuds*2 Earbuds charging case*1 Type-C charging cable*1 User Manual*1 Large international silicone caps*2

The above data is sourced from the PISEN Laboratory, while actual parameters may vary with product or other factors.

Kind reminders

Thank you for buying the C1. Please read this manual carefully to ensure safe and satisfactory operation, and properly keep it for future references.

- The specifications and external appearance of the product are subject to change and improvement at any time.
- The design and specifications are subject to change without prior notice.
- Please clean the earbuds with a dry cloth frequently.

Product diagram

Use instructions for earbuds

- Power-on**
a. Open the charging case cover, the earphones will automatically turn on.
b. When the earphones are outside the charging case and turned off, long press the touch function button of any earphone for 3 seconds to turn on the earphones.
- Power-off**
a. Put the earphones into the charging case and close the lid, the earphones will turn off and charge.
b. Long press any earphone touch function button for 8 seconds to turn off the earphones.
- Earbuds pairing**
In the case of sufficient power, open the cover of the charging case, and the left and right earphones will automatically turn on and complete the pairing.
- Connecting to a mobile phone**
• **Connecting both earbuds to a mobile phone**
Open the charging case and take out the earphones. The earphones enter pairing mode when the blue indicator lights of the main earphones flash alternately, and the white indicator light of the secondary earphones is in breathing state. Search for the pairing name "Pisen C1" on the phone, click to connect, and the indicator light will turn off after successful connection (Supports single earphone connection).
• **Automatically connecting to a mobile phone**
When there is a pairing record, open the charging case cover and the earphones will automatically reconnect to the most recently connected phone.

Instructions for earbuds touch controls

Music play mode

- Pause/Play: Double click on the function key of any earphone.
- Next track: Triple click on the function key on the right earphone(R).
- Previous track: Triple clicks on the right earphone(L).

Low battery: The ice blue indicator light flashes for 4 seconds before turning off.
- Charge the charging case**
Charging: Ice blue indicator light flashing.
Fully charged: The ice blue indicator light remains on.

Warning:

- Please store and use the product at normal temperature.
- Do not expose the product to the rain or humid environment.
- Do not throw or lose the product, so as to avoid damage.
- Do not disassemble, repair, or modify the product by yourself.
- The product contains a non-rechargeable lithium battery, so be sure not to dispose of it randomly, put it in fire, or expose it to direct sunlight so as to avoid hazardous.
- Please dispose of the battery according to local regulations and recycle it whenever possible, and be sure not to dispose of it as the domestic waste, so as to avoid environmental pollution.

Kind reminders:

- To avoid the hearing damage, please keep the volume at a moderate level and avoid listening to music at a high volume for a long time, as it may result in permanent hearing damage or deafness.
- Please refrain from making phone calls or using earbuds while driving, cycling, crossing roads or engaging in situations that require focused attention.
- When watching videos with earbuds, the audio and video may get out of sync slightly.
- If the earbuds are not used for a long time, please fully charge them at least once a month to extend the battery life.
- If the earbuds are still connected or not charged after being put into the charging case, please wipe the stain on the charging contacts of earbuds to ensure good charging contact.
- The output voltage and current of charge shall not exceed 5V/1A. If their specified values are exceeded, the product will be seriously damaged and the warranty will be voided.

FCC Warning:

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause unintended operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates noise and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no

guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without restriction.
