Specification parameters

Product model	BHD-TW16
FCC ID	2BCVO-BHD-TW16
Dimensions	50.5*45.5*21.8mm (1.99*1.79*0.86in)
Weight	Approx. 38.1g (1.34oz)
Battery type	Rechargeable polymer lithium battery
Charging input	DC 5V=1A
Battery capacity of earbuds	30mAh*2
Battery capacity of charging case	300mAh
Rated voltage	3.7V
Frequency response range	20Hz-20KHz
Charging time	Approx. 1.5h
Endurance	Approx. 25h
Endurance of single earbud	Approx. 5h (50% volume)
Operation range Supported	≤10 meters
protocols	Headset / Handsfree / A2DP / AVRCP
Accessories	Earbud*2 earbuds charging case*1 Type-C charging cable*1 User Manual*1 Lanyard*1

The above data is sourced from the PISEN Laboratory, while actual parameters may vary with product or other factors.

Kind reminders

Thank you for buying the P1 Plus. Please read this manual carefully to ensure safe and satisfactory operation, and properly keep it for future reference.

- The specifications and external appearance of this product are subject to change and improvement at any time.
- The design and specifications are subject to change without prior notice.
- Please clean the earbuds with a dry cloth frequently.

Product diagram

3

Use instructions for earbuds

- Power-on**
Open the lid of charging case, and the earbuds will be automatically powered on.
- Power-off**
Put the earphones into the charging case and close the lid, the earphones will turn off and charge (The earphones will automatically shut down after 5 minutes of no pairing status.)
- Earbuds pairing**
In the case of sufficient power, open the cover of the charging case, and the left and right earphones will automatically turn on and complete the pairing.
- Connecting to a mobile phone**
 - Dual earphone connection to phone**
Open the charging case, the earphones enter pairing mode. Search for the pairing name "Pisen P1 Plus" on the phone. Click to connect, and after successful connection, a prompt sound will be played. (Supports single earphone connection)
 - Automatically connect to phone**
When there is a pairing record, open the charging case cover and the earphones will automatically reconnect to the most recently connected phone.
- Intelligent dual connection**
First, turn on the Bluetooth of device A and connect the Bluetooth earphones, then turn off the Bluetooth of device A. Then turn on the Bluetooth of device B, search and connect the Bluetooth earphones, and then connect device A back to the Bluetooth earphones to achieve intelligent dual connection.

4

Instructions for earbuds touch controls

- Low battery warning for charging case:
Put the headphones into the charging case, and the blue indicator light on the charging case will flash, indicating that the charging case has low battery and needs to be charged in a timely manner.
- Charging the charging case:
Charging: White indicator light flashing.
Fully charged: The white indicator light remains on.

Warning:

- Please store and use the product at normal temperature;
- Do not expose the product to the rain or humid environment;
- Do not throw or toss the product, so as to avoid damage;
- Do not disassemble, repair, or modify the product by yourself;
- The product contains a non-replaceable lithium battery, so be sure not to dispose of it randomly, put it in fire, or expose it to direct sunlight, so as to avoid hazards;
- Please dispose of the battery according to local regulations and recycle it whenever possible, and be sure not to dispose of it as the domestic waste, so as to avoid environmental pollution.

6

Kind reminders:

- To avoid the hearing damage, please keep the volume at a moderate level and avoid listening to music at a high volume for a long time, as it may result in permanent hearing damage or deafness.
- Please refrain from making phone calls or using earbuds while driving, cycling, crossing roads, or engaging in situations that require focused attention.
- When watching videos with earbuds, the audio and video may get out of sync slightly.
- If the earbuds are not used for a long time, please fully charge them at least once a month to extend the battery life.
- If the earbuds are still connected or not charged after being put into the charging case, please wipe the stain on the charging contacts of earbuds to ensure good charging contact.
- The output voltage and current of charger shall not exceed 5V/1A. If their specified values are exceeded, the product will be seriously damaged and the warranty will be voided.

FCC Warning:

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no

7

guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
