

CyweeMotion Smart Watch Basic 1

Quick start

Appearance and charging

Power on: Charging can automatically power on or long press the button to power on.

Charging: Align the metal contacts of the charging base with the metal contacts of the charging port on the back of the device, connect the other end to the charger and turn on the power until the charging power indicator appears on the screen. (Note: The charging base is not waterproof, please keep the base and device dry during charging.)

pair

- 1、 When using it for the first time, you need to complete the pairing of the mobile phone and the device through the Xianxin Electronics App . Scan the QR code

with your mobile phone or go to the app market to download and install the latest version of Xianxin Electronics App (hereinafter referred to as APP).

- 2、 Open the APP , select the device you want to connect from the list of optional devices, and follow the device and APP interface prompts to complete pairing.

Notice:

- When pairing, please ensure that **the Bluetooth of your phone** is turned on and pair through the APP . Please do not pair directly via **Bluetooth** on your mobile phone system .
- In order to avoid abnormal **Bluetooth** connections or unavailability of some functions, it is recommended to select "Allow" or "Agree" the relevant permission reminder during the installation of the APP or the connection and pairing process.

Data security

Using unauthorized third-party software to upgrade the device's firmware and system may cause security risks such as the device becoming unusable or your personal information being leaked. It is recommended that you use online upgrade or send the device to an after-sales service center near you for upgrade.

Import and export controls

If you need to export, re-export or import the products described in this manual (including but not limited to the software and technical data in the products), you should comply with applicable import and export control laws and regulations.

privacy protection

To learn how we protect your personal information, please read our Privacy Policy. Or view the privacy statement and terms of service details on the app .

Safety information

Before using and operating the equipment, please read and follow the precautions below to ensure optimal performance of the equipment and to avoid hazardous or illegal situations.

Electronic equipment

Do not use this device in places where the use of wireless devices is expressly prohibited. Otherwise, it may interfere with other electronic devices or cause other

dangers.

Impact on medical devices

- In medical and healthcare settings where the use of wireless devices is prohibited, follow the rules of the location and turn off the device.
- The radio waves generated by the device may affect the normal operation of implanted medical devices or personal medical devices, such as pacemakers, cochlear implants, hearing aids, etc. If you use these medical devices, please consult the manufacturer for restrictions on use of the device.
- When using this device, please keep a distance of at least 15 cm from implanted medical devices (such as pacemakers, cochlear implants, etc.).

Flammable and explosive areas

- Do not use this equipment at gas stations (repair stations) or near any flammable or explosive areas such as flammable materials or chemicals, and follow all graphic or text instructions. In or around fuel or chemical storage and transportation areas or explosive locations, the equipment may cause an explosion or fire.
- Do not store or transport the device and its accessories in the same box as flammable liquids, gases, or explosive items.

traffic safety

- Remember that safe driving is your first responsibility and do not engage in distracting activities.
- Your car's electronics may malfunction due to radio interference from the device. Please contact the manufacturer for details.
- Do not place the device over a vehicle air bag or within the area where the air bag can be reached after deployment. Otherwise, when the airbag inflates, the device will be pushed by a strong external force and cause serious injury to the occupants of the vehicle.
- Wireless devices may interfere with the aircraft's flight system. Please abide by the relevant regulations of the airline and do not use this device in places where the use of wireless devices is prohibited.

operating environment

- Do not use the device in a humid place or near a magnetic field to avoid causing internal circuit failure of the device.
- Do not use this device during thunderstorms. Thunderstorms may cause equipment failure or electrical shock hazards.

- Please use this device within the temperature range of 0°C ~ +45°C . When the ambient temperature is too high or too low, equipment failure may occur.
- Do not place the device in direct sunlight, such as on a car dashboard or window sill.
- Do not place the device near heat or exposed fire sources, such as electric heaters, microwave ovens, ovens, water heaters, stoves, candles, or other places that may generate high temperatures.
- Do not place sharp metal objects such as pins near the device's microphone, charging base, and speaker sound hole to prevent metal objects from adhering and causing harm to you.
- When using the flashlight function, do not bring the flash part close to the eyes of people or pets to avoid temporary dizziness or visual impairment.
- After the equipment has been running for a period of time, the temperature of the equipment will increase. If the temperature of the device is too high, do not touch it for a long time, otherwise it may cause low-temperature burns, skin redness, swelling or pigmentation.
- Do not let children or pets bite the device or its accessories to avoid causing injury or causing device malfunction or explosion.

Waterproof and dustproof

The device has been tested and shown to be waterproof and dustproof in the specified environment (in compliance with the IP68 category requirements provided by the international standard IEC 60529).

children health

- This device and its accessories may contain some small parts. Please keep the device and its accessories out of the reach of children. Children may inadvertently damage this device and its accessories, or swallow small parts that may cause choking or other hazards.
- This device is not a toy and should be used by children under adult supervision.

Accessory requirements

- Use of unapproved or incompatible power sources, chargers or batteries may result in fire, explosion or other hazards.
- Only use accessories approved by the equipment manufacturer for this model of equipment. If you use other types of accessories, it may violate the warranty terms of the device and the relevant regulations of the country where the device is located, and may cause safety accidents. For approved accessories, please

contact an authorized service center .

Charger safety

- When the device is being charged, the power socket should be installed near the device and should be easily accessible.
- When charging is complete or is not charging, disconnect the charger from the device and unplug the charger from the power outlet.
- Do not drop or hit the charger. If the charger casing is damaged, please contact an authorized service center for replacement.
- If the charger plug or power cord is damaged, do not continue to use it to avoid electric shock or fire.
- Do not touch the power cord with wet hands or pull out the charger by pulling on the power cord.
- Do not touch the device or charger with wet hands to avoid device short circuit, malfunction or electric shock.
- When the charger is exposed to rain, liquid, or severe moisture, please stop using it and contact an authorized service center for replacement.
- The charger must meet the requirements of "2.5 Restricted Power Supply " in the standard " GB4943.1 Safety of Information Technology Equipment" .
- If the device needs to be connected to a USB port, please confirm that the USB port has the USB-IF logo and its performance complies with the relevant USB-IF specifications.
- Device charging input rated voltage and current: 5V / 0.5A .

battery safety

- This device is equipped with a non-removable built-in battery. Please do not replace the battery yourself to avoid damaging the battery or the device. The battery can only be replaced by an authorized service center.
- Do not expose your watch to high temperatures or around heating devices, such as heaters, microwave ovens, ovens, or water heaters. Overheating of the battery may cause it to explode.
- Do not disassemble or modify the battery, insert foreign objects, or immerse it in water or other liquids to avoid battery leakage, overheating, fire, or explosion.
- If the battery leaks, do not allow the leaked liquid to come into contact with your skin or eyes. If it comes into contact with skin or eyes, please rinse with water immediately and go to the hospital for medical treatment.

- Do not throw the battery into a fire, otherwise it may cause the watch battery to catch fire and explode.
- Please dispose of batteries according to local regulations and do not dispose of batteries as household waste. Improper handling of batteries may cause them to explode.
- Do not let children or pets chew the battery to avoid causing injury or causing the battery to explode.
- Do not drop, crush or puncture the battery. Avoid subjecting the battery to large external pressure, which may cause internal short circuit and overheating of the battery.
- Do not use damaged batteries.

Maintenance and care

- Please keep the device and its accessories dry. Do not use external heating devices such as microwaves or hair dryers to dry them.
- Do not place the device and its accessories in areas where the temperature is too high or too low, otherwise it may cause device failure, fire or explosion.
- Do not subject the device and its accessories to strong impact or vibration to avoid damage to the device and its accessories, resulting in device failure.
- If the product is equipped with a leather wristband, please avoid using it in an environment exposed to scorching sun, direct sunlight, high temperature, or humidity. If it accidentally gets wet or sweaty, please wipe it off as soon as possible and place it in a ventilated and cool place to wait for drying. Do not use external heating equipment such as microwave ovens and hair dryers to dry wet leather wristbands, otherwise the leather surface may shrink or expand.
- If the product is equipped with a light-colored wristband, please do not touch dark-colored clothing when using it to prevent staining.
- Before cleaning and servicing, stop using the device, close all applications, and disconnect all connections or cables from other devices.
- Do not use harsh chemicals, cleaning agents, or strong detergents to clean the device or its accessories. Please use a clean, dry, soft cloth to wipe the device or its accessories.
- Do not leave magnetic stripe cards (such as bank cards, phone cards, etc.) in contact with this device for a long time, otherwise the magnetic stripe card may be damaged by the magnetic field.
- Please do not disassemble or modify the equipment and accessories without

authorization, otherwise the equipment and accessories will not be covered by the company's warranty. If the equipment fails, please contact the authorized service center .

- If the device collides with a hard object or the device is subject to strong impact from the outside and the screen is partially broken, do not touch or attempt to remove the broken part. Please stop using it immediately and contact an authorized service center in a timely manner .

environmental protection

- Do not dispose of this device and its accessories with ordinary household waste.
- Please comply with local regulations for the disposal of this device and its accessories and support recycling initiatives.

Regulatory information

This information is for reference only and does not constitute any form of commitment. Please refer to the actual product (including but not limited to color, size, screen display, etc.). If there is any inconsistency between this information and the official website description, please refer to the official website description without prior notice.

This product is not a medical device. The health information and suggestions provided are for reference only and are not used as a basis for diagnosis and treatment.

Name and content of harmful substances in products

Part Name	Harmful Substance					
	lead (Pb)	HG (Hg)	cadmium (Cd)	Hexavalent chromium (Cr(VI))	polybrominated biphenyls (PBB)	Polybrominated diphenyl ethers (PBDE)
Host	X	O	O	O	O	O
wristband	O	O	O	O	O	O
Battery	X	O	O	O	O	O
Charging base	X	O	O	O	O	O
Charging Cable	X	O	O	O	O	O

This form is prepared in accordance with the provisions of SJ/T 11364 .

O : Indicates that the content of the hazardous substance in all homogeneous materials of this part is below the limit requirements specified in GB/T 26572 .

X : Indicates that the content of the hazardous substance in at least one homogeneous material of the component exceeds the limit requirements specified in GB/T 26572 , and there is currently no mature alternative in the industry that complies with the environmental protection requirements of the EU RoHS directive.

20 years under normal use .

5

years under normal use .

Some parts may also have an environmental protection use period mark, and the environmental protection use period is based on the number in the mark. Due to different models, the product may not include all the above components except the host. Please refer to the actual sales configuration of the product.

Service Policy

Dear user, thank you for choosing Xianxin Electronics smart wearable products. Xianxin Electronics smart wearable products purchased through formal channels enjoy the three guarantees provided by the state in accordance with the law. You can learn the specific details through the official APP and official customer service website.

Notice:

- This three-guarantee certificate is only applicable to the three-guarantee service of the host and accessories with the serial numbers listed above.
- Please keep this three-guarantee voucher properly and present this voucher and related invoices when enjoying the three-guarantee service.
- This voucher must be stamped by the sales unit before it can be valid.
- The damage is considered to be outside the scope of the warranty. For specific warranty coverage, please refer to the service policy of the official customer service website .
- Products can only enjoy maintenance services in the country or region where they were purchased.
- Due to different models, the product may not include all the above accessories. Please refer to the actual sales configuration of the product.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
