

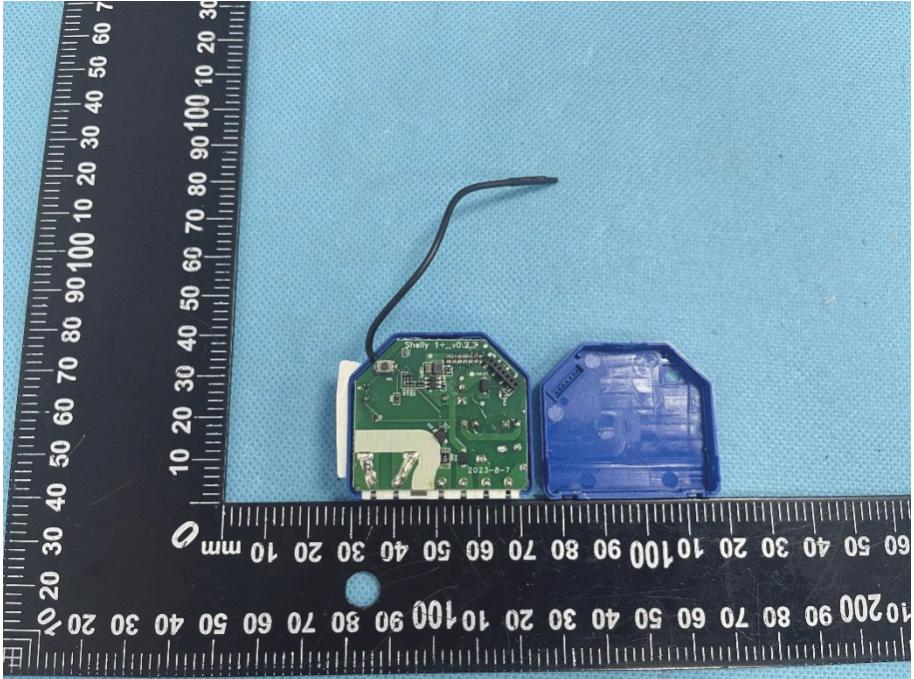

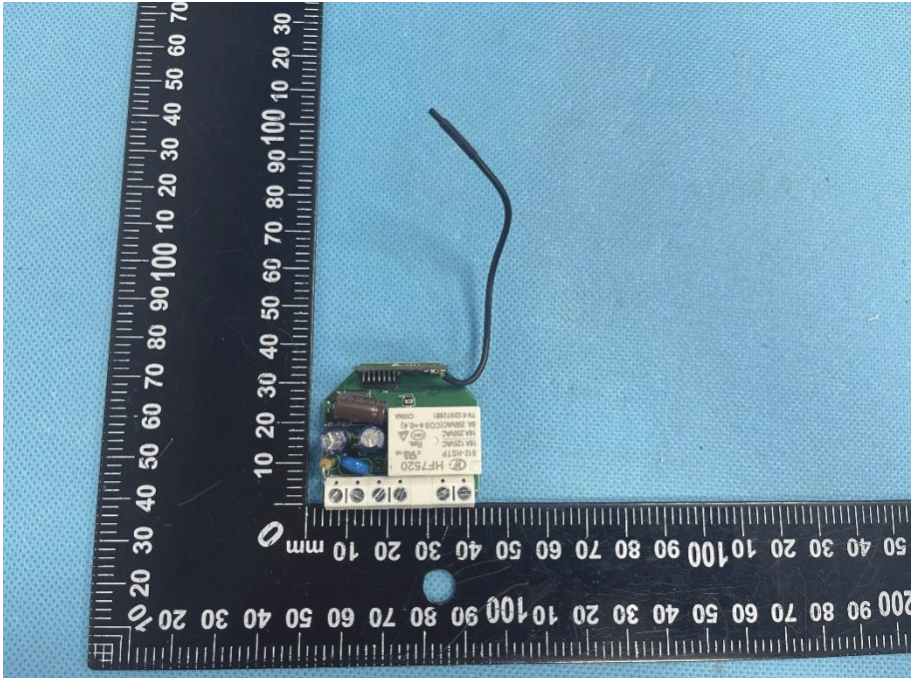

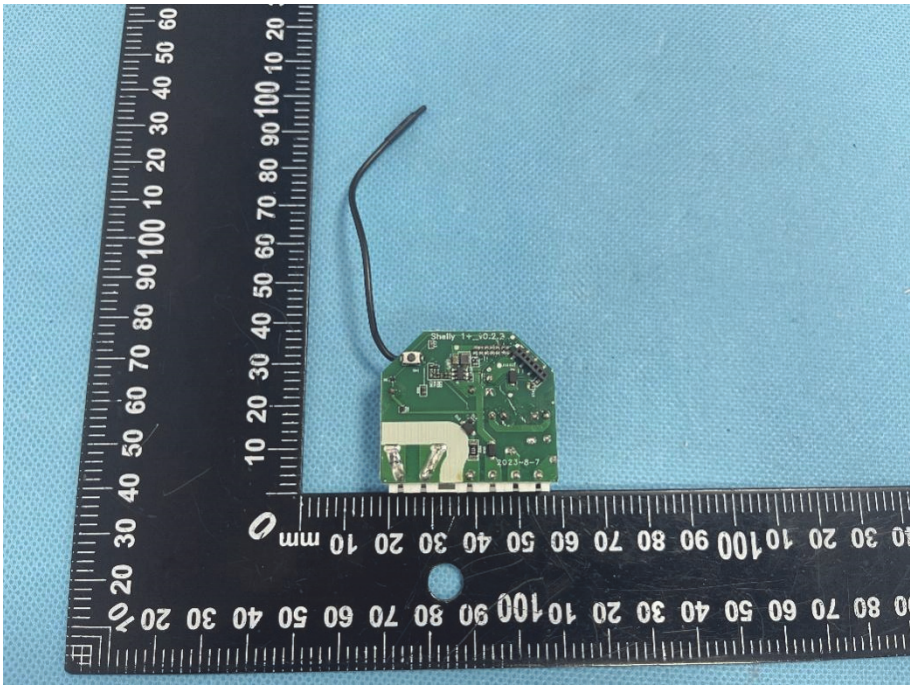

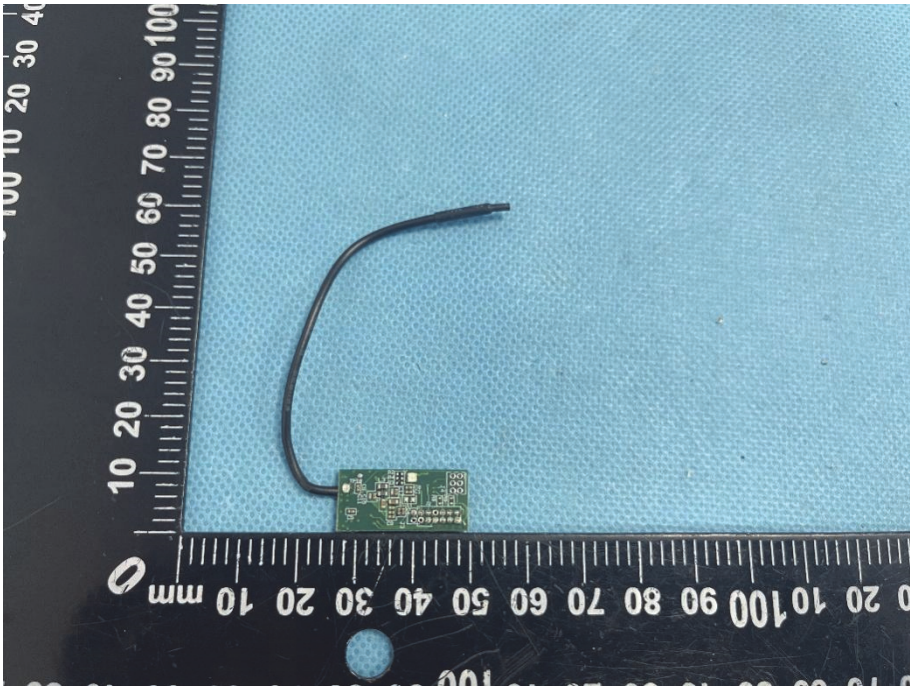

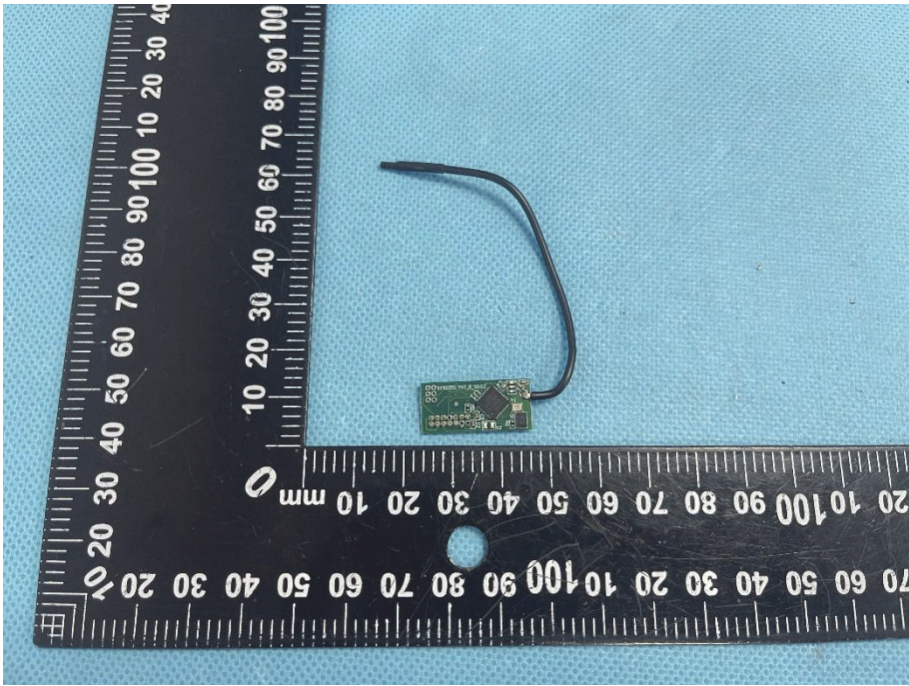

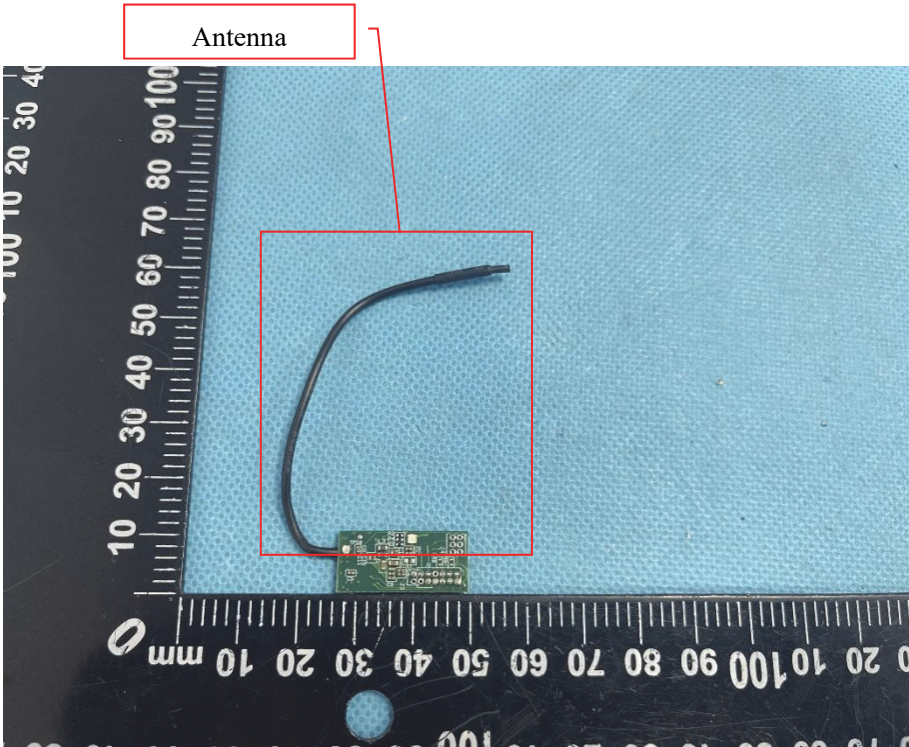

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 A photograph showing the EUT housing and board. On the left is a green printed circuit board (PCB) with various electronic components, including a microcontroller and several capacitors. A black wire is connected to the board. To the right is a blue plastic housing. Both are placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
<p><b>Solder Board-Component View 1</b></p>	 A close-up photograph of the solder board-component. It shows a green PCB with a white component labeled 'HFT520' and '95A'. A black wire is connected to the component. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.

<p><b>Solder Board-Component View 2</b></p>	 A photograph showing a small green printed circuit board (PCB) component with a black wire attached. The component is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The component is positioned near the 100 mm mark on the horizontal ruler and the 100 mm mark on the vertical ruler. The component has several small components and a label that reads "Shelly 1+ v0.2.3".
<p><b>Solder Board-Component View 3</b></p>	 A photograph showing the same small green PCB component with a black wire attached, viewed from a different angle. The component is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The component is positioned near the 100 mm mark on the horizontal ruler and the 100 mm mark on the vertical ruler. The component has several small components and a label that reads "Shelly 1+ v0.2.3".

<p><b>Solder Board-Component View 4</b></p>	 A photograph showing a small green printed circuit board (PCB) component with a black antenna wire attached. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 100 mm marks.
<p><b>Antenna View</b></p>	 A photograph showing a close-up view of the black antenna wire. The wire is curved and attached to a small green PCB component. A red rectangular box highlights the antenna wire, and a red line points from a label "Antenna" to the box. The component is placed on a blue textured surface next to a black ruler with white markings.
