

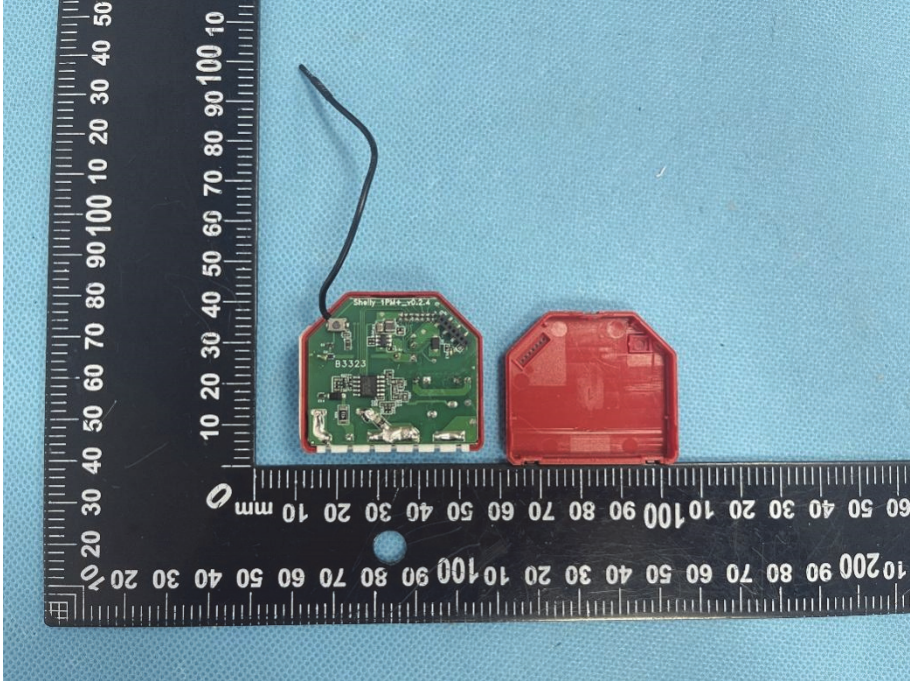

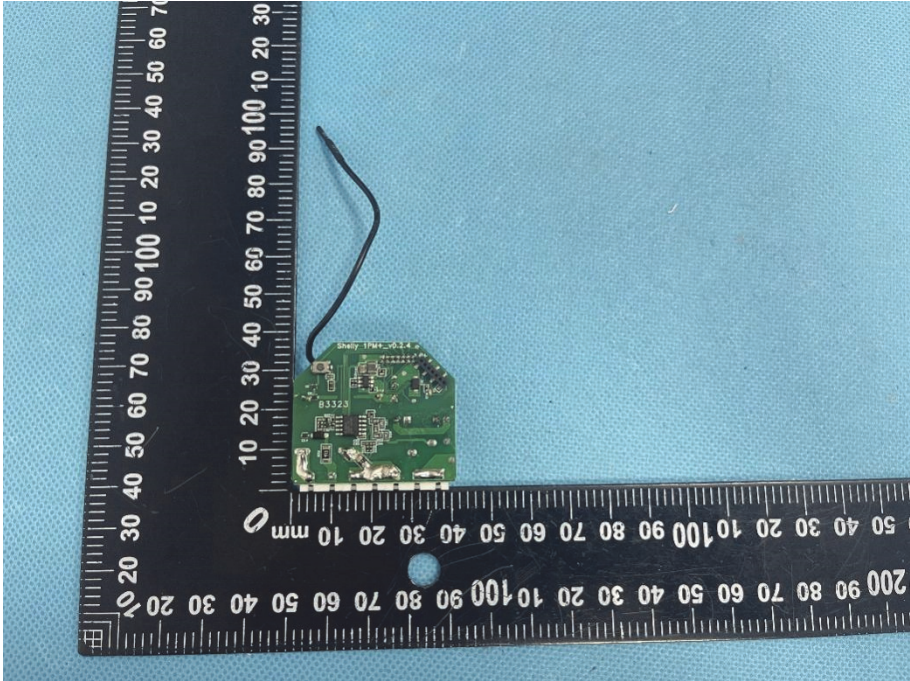

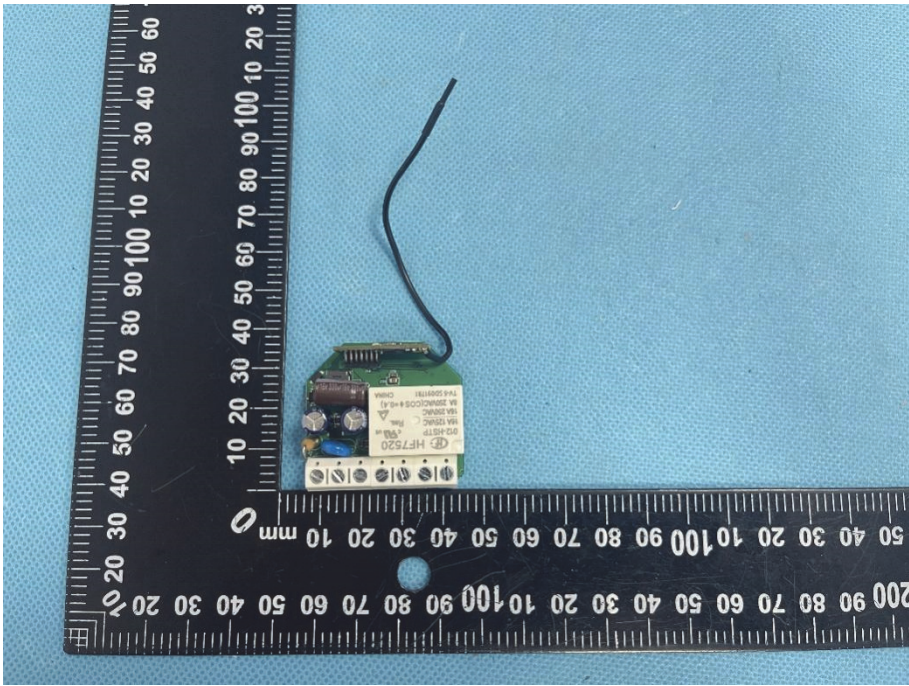

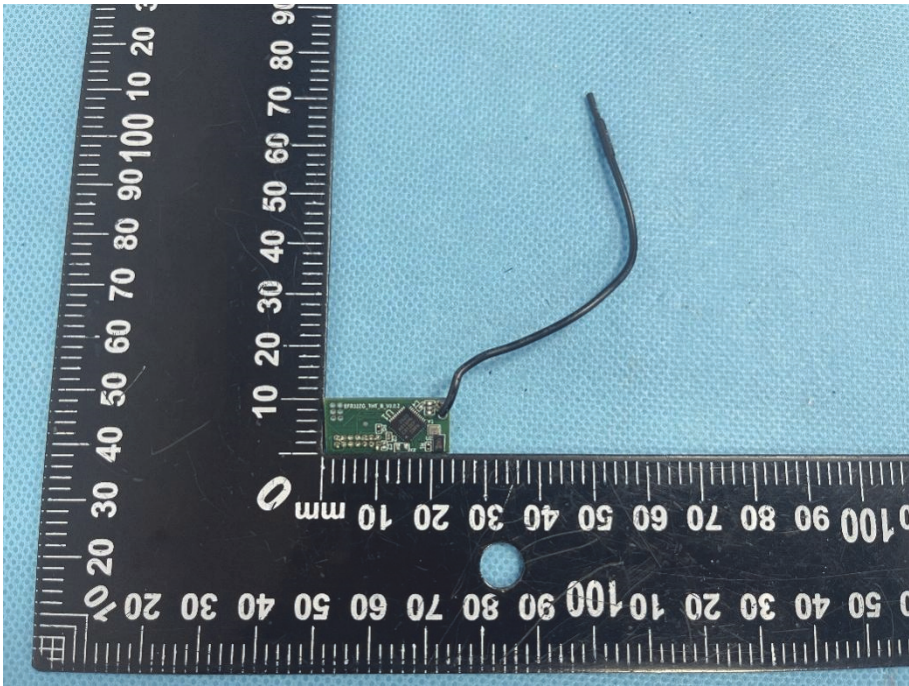

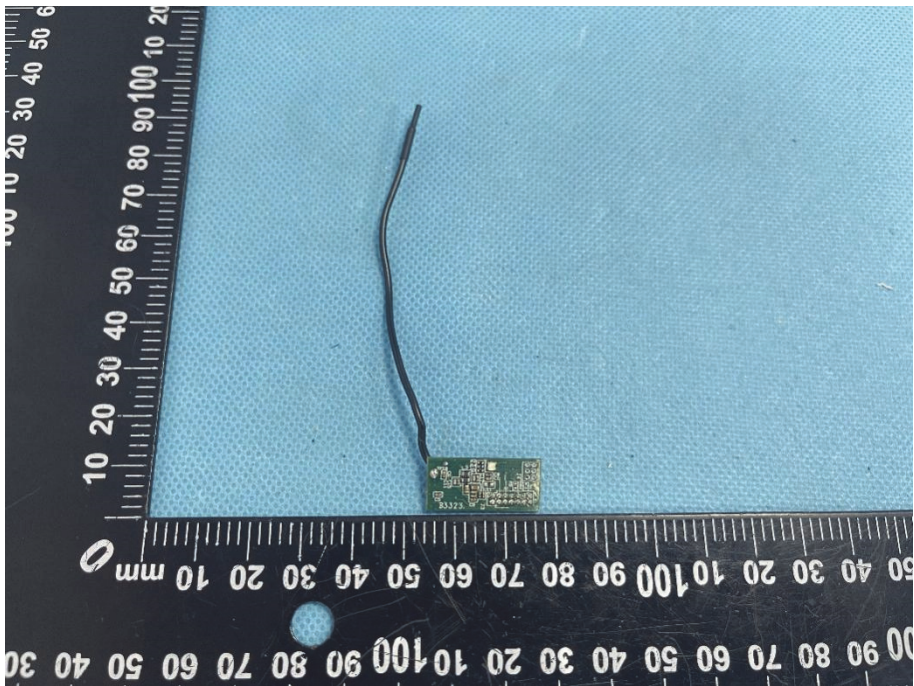

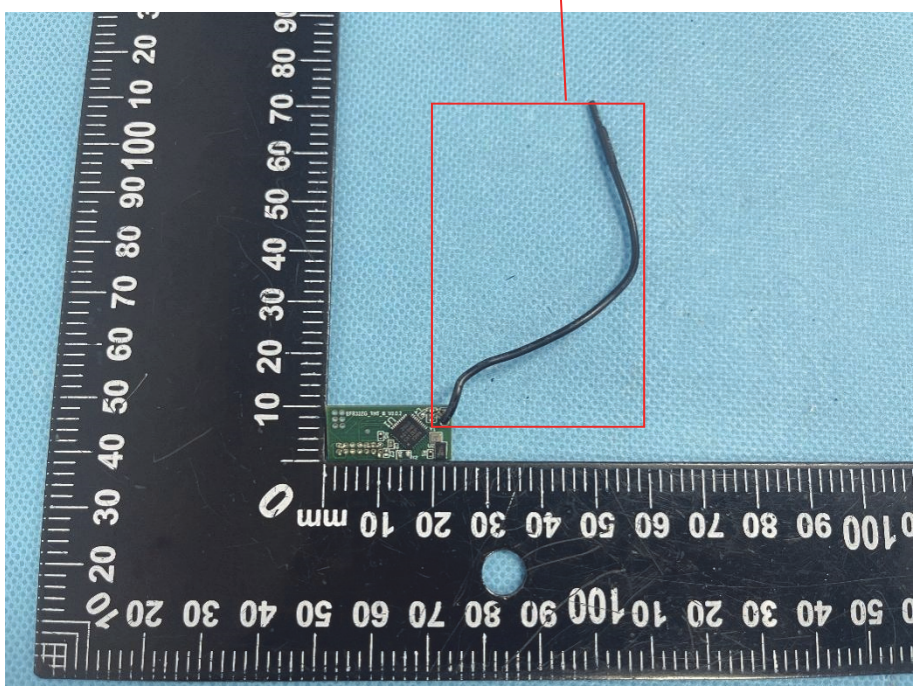

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 <p>A photograph showing the EUT housing and board side-by-side. The housing is red and the board is green. A black wire is attached to the board. A ruler is placed below the components for scale. The ruler shows measurements in millimeters and centimeters. The board has the text 'Shenq TM4-0634' and 'B3323' printed on it.</p>
<p><b>Solder Board-Component View 1</b></p>	 <p>A close-up photograph of the solder board-component. A black wire is attached to the board. A ruler is placed below the component for scale. The ruler shows measurements in millimeters and centimeters. The board has the text 'Shenq TM4-0634' and 'B3323' printed on it.</p>

<p><b>Solder Board-Component View 2</b></p>	 A photograph showing a small green printed circuit board (PCB) component with a black wire attached. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters and centimeters. The component has several components on it, including a small black chip and some resistors. The text on the component is partially legible, including "HF7520".
<p><b>Solder Board-Component View 3</b></p>	 A photograph showing the same small green PCB component from a different angle. The black wire is more prominent, curving upwards. The component is again placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters and centimeters. The component has several components on it, including a small black chip and some resistors. The text on the component is partially legible, including "HF7520".

<p><b>Solder Board-Component View 4</b></p>	 A photograph showing a small green printed circuit board (PCB) component with a thin, curved antenna wire attached. The component is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm. The antenna wire is approximately 100 mm long and has a slight curve.
<p><b>Antenna View</b></p>	<p>Antenna</p>  A close-up photograph of the antenna wire from the previous view. The wire is thin and black, with a slight curve. It is attached to the green PCB component. A red rectangular box highlights the antenna wire, and a red line points from a label 'Antenna' to this box. The background is the same blue textured surface and black ruler as in the previous view.
