Camera LED Light Guide

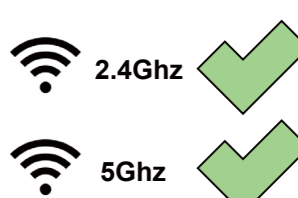

- Solid Blue: Camera is connected with Wi-Fi and EOJO App.
- Flashing Blue: Camera has been turned on, ready to pair with EOJO App.
- Solid Red: Camera is malfunctioning, please contact EOJO for support.
- Flashing Red: Camera is disconnected from Wi-Fi.

The LED indicator will light up when camera is plugged in.

Step 1: Download EOJO App
Search for 'EOJO' in the Apple App Store or Google Play (developed by D-DAO Technology). Launch the EOJO App and create a new account.

Step 2: Prepare to Connect Your Camera
Get your EOJO camera ready for Bluetooth pairing:

Pre-pairing checklist:

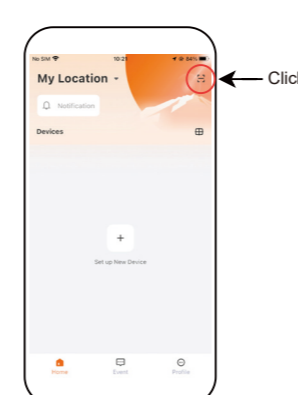

1. Make sure your smartphone is connected to your Wi-Fi.
2. Turn on Location Services on your smartphone.
3. The camera support 2.4GHz and 5GHz Wi-Fi.
4. Double check that the Micro-SD card is inserted in the camera.
5. Plug in your camera and make sure it is powered on.

Step 3: Power on EOJO camera
Plug in the EOJO camera, wait for the blue indicator light to flash at the back, then follow the voice prompt to begin Bluetooth pairing.

:"Please scan the QR code on the camera using EOJO App"

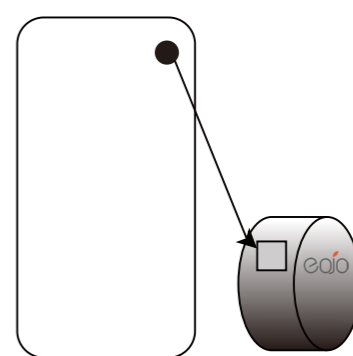

Step 4: Add EOJO camera to EOJO App
Click the "[+]" icon on the upper right corner of the EOJO App to add an EOJO camera.

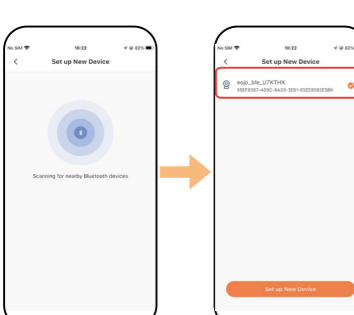

Step 5: Scan QR code on Camera
Scan the QR code on the camera sticker to begin the Bluetooth pairing process.

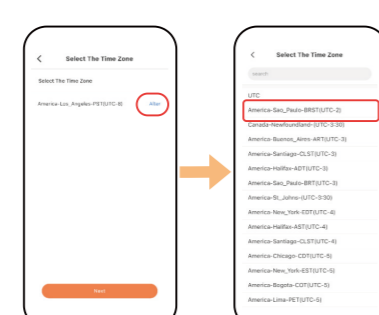

Scan QR code on the side of your EOJO camera body to start Bluetooth pairing.

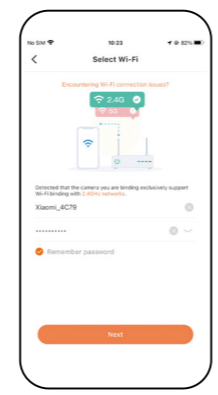

Step 6: Select Your EOJO Camera
Select the EOJO Camera you want to pair.

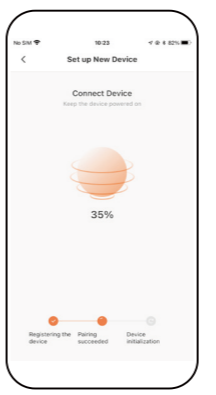

Step 7: Choose Your Camera Time Zone
If the time zone is not set to where you are, click "Alter" to select the correct time zone.

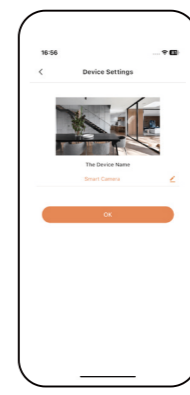

Step 8: Input Wi-Fi Password
Double check that your home Wi-Fi (2.4GHz or 5GHz) name is correct and input your Wi-Fi password.

Step 9: Wait for Bluetooth Pairing Process to Finish
EOJO camera Bluetooth pairing in-progress.

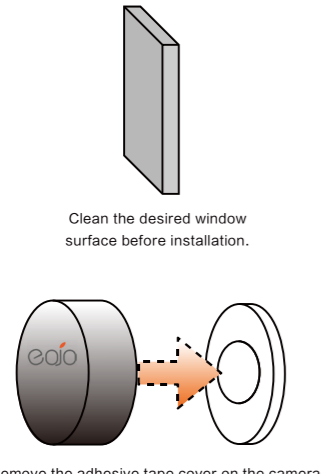

Step 10: Name your new EOJO camera.
*You have a 30-day free trial of EOJO cloud service(see page 18 for more details). During this period, you can explore the premium features of the EOJO Camera.

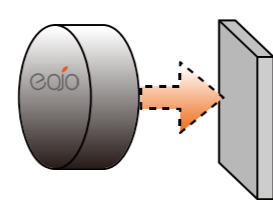

Camera setup complete

Step 11: Prep Camera for Installation

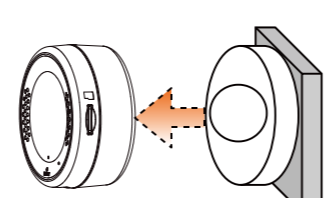

Clean the desired window surface before installation.
Remove the adhesive tape cover on the camera.

Step 12: Install the Camera on Window
Press the camera firmly against the window for 30 seconds and release.

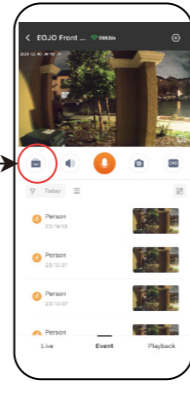

Congratulations, you are all set! We hope you enjoy your EOJO camera.

Appendix: How to Remove EOJO Camera from Window
To relocate and reinstall your EOJO Camera, first peel the camera away from the tape base. Then, attach it to the spare tape base included in the box. Finally, follow the procedures listed on pages 15 and 16.

FCC Statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
RF Exposure Information
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

ISED Statement
