Key Features

360°PTZ Rotation

Advanced 2K QHD 4M Pixel Full Infrared Night Vision. Support 360° PTZ Rotation.

Crying Detection

Automatically detect the baby's crying, send you instant notifications through the APP, and play gentle music to soothe the baby to fall asleep again.

Virtual Fence

Simshine baby 2 can set up a virtual fence in the zones where your baby sleeps or plays. If he/she leaves the safe zones, Simshine baby 2 will send timely alerts to your mobile phone.

Smart Soothing

Mothers are not with superpower, and sometimes they are just too busy. Simshine baby 2 can help your baby fall back to sleep.

Capture The Best Moments

Simshine baby 2 can automatically capture your baby's facial expressions every 15 minutes. When the AI camera recognizes the rich expressions of the baby, it will automatically save the baby's picture.

New upgrade of Simshine baby 2

Sleep Monitoring and Soothing & more professional

Simshine baby 2 can recognize your baby's face intelligently and notifies you if the baby is sleeping, awake, moving or crying. A new respiratory perception algorithm to analyze the baby deep/shallow sleep time.

Smart Nursing & more intelligent

Person tracking, automatic movement of camera lens, omni-directional care, intelligent real-time temperature and humidity environment detection to make the baby more comfortable.

Record growth, more intimate

Time capsule automatically generates a wonderful collection every week, and the video one-click to share the baby's growing time.

Install the SimShine Baby 2

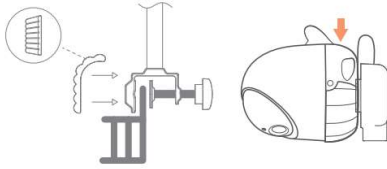

SimShine Baby 2 can be placed on a flat surface or mounted on the crib. Don't install the holder at the head or the end of the crib. It is recommended to install the holder at the left or right edge of the crib.

- Do not install here
- Install here

Attach the c-clamp of the holder to the crib and tighten it with the knob. Align the camera with the holes on the base of the holder and rotate the camera until it snaps into place. Plug the USB power cable into the camera. You can extend the holder to your desired height and tighten it with the knob.

Warning:

- Install the crib holder to a sturdy, square piece of furniture. It is not recommended to mount it on a round object.
- Do not shake the holder. Don't allow the baby to play with the holder.
- After installation, test its stability regularly. We will not take any responsibilities for any damage or injuries due to inappropriate installation.

Warranty

What does this warranty cover?

Simshine guarantee that each Simshine's product you purchase is free from any defects in material or workmanship under normal use during the Warranty Period. The warranty period for a Simshine product is twelve (12) months from the day when the product is delivered to the first end-user. During the Warranty Period, SimShine will repair or replace, at no charge, products or parts of a product that proves defective because of improper material or workmanship, under normal use and maintenance.

What is not covered by this warranty?

Defects caused by incorrect use or improper installation not following the product manual instructions;
Defects caused by unauthorized modification, repairs, disassembly or use with third-party components or product;
The serial number has been removed or defaced from the Simshine product;
Damages caused by lightning, fire, earthquake, tornado, or other events of force majeure;
Consumables parts, including but not limited to batteries, unless damage is due to defects in material or workmanship of the product;
Simshine products purchased from an unauthorized reseller;
Damage caused by third-party service providers who are not authorized by Simshine;
Fail to provide proof of purchase that you are the authorized user of the product;
Any non-Simshine branded products, such as batteries, SD card and cables, even if sold or shipped with Simshine products;
Products marked as "Sample" or "Not for Sale" , or sold "AS IS" ;
This warranty cannot be transferred from the original end-user to Any indirect or consequential damages or losses resulting from the product failure such as loss of data and loss of business.

Return & Refund

If customers are not completely satisfied with the Simshine product, they can return it within 30 days after the receipt of the product.

To be eligible for a return, the product must be unused and returned in the same condition that you received it. It must also be in the original packaging. Products that show any signs of wear, or that are not packaged like new with all accessories and manuals will not be accepted under this return policy. To complete your return, we require a receipt or proof of purchase and the serial number. Customers will have to pay all the return shipping costs. No restocking fee will be charged for the return of a product.

Once your returned product is received and inspected, we will email you a notification of receipt. We will also notify you of the approval or rejection of your refund. If you are approved, then your refund will be processed, and a credit will automatically be applied to your credit card or original method of payment, within a certain amount of days. Please note shipping charges are non-refundable.

How to obtain warranty service?

Contact Simshine support team by email support@simshine.ai or Simshine authorized resellers/repair centers and describe the product issues. They will attempt to identify and resolve the problem of your product by offering you tips and advice, software or firmware updates.

If the problem cannot be identified or resolved through remote assistance or software updates, you will be requested to return the product to the address provided by Simshine or authorized resellers.

Simshine will examine the returned product to identify the problem, if Simshine determines that the problem in question is not covered by this warranty, you will have to apply for paid repair service.

FCC Caution.

§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning for Mobile device:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
