Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, identified as 'View 4'. The component is rectangular with various electronic components soldered onto it, including a central microcontroller, several resistors, and capacitors. It is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has white markings in millimeters and centimeters.
Solder Board-Component View 5	 A photograph of a small, rectangular, gold-colored component, identified as 'View 5'. This component is likely a surface-mount device (SMD) or a small PCB. It is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has white markings in millimeters and centimeters.

Solder Board-Component View 6	 A photograph showing a small yellow component with five pins, labeled 'A5229SDA01' and '2023-4-21', placed on a blue textured surface. A black L-shaped ruler with white markings in millimeters is positioned next to the component for scale.
Antenna View	BT Ant.  A photograph of a green printed circuit board (PCB) with various electronic components. A red box highlights a specific area on the right side of the board, which is pointed to by a red line from the label 'BT Ant.' located in a white box above the image. A black L-shaped ruler with white markings in millimeters is placed to the left of the PCB for scale.
