8. Additional Info

(1) In the Box

- Klydoclock
- Remote Control
- USB-C Adapter (12V2A)
- This booklet

(2) Klydoclock Anatomy

Front

- 1 Main display
- 2 Pendulum display

Back

- 3 The Knob
- 4 LED indicator
- 5 Reset button
- 6 USB-C charging port 12V
- 7 Light sensor

Remote control

- 1 Wake/Dim/Sleep Toggle
- 2 Artist Info block
- 3 Right/Next
- 4 Left/Previous
- 5 Add-Remove Favorite/Select
- 6 Menu Toggle
- 7 LED indicator
- 8 USB charging part

(3) Guide Steps

1. Find a nice spot to place your Klydoclock.
2. Plug in the supplied power adapter.
3. Grab the remote control and follow the setup process on your Klydoclock's screen.

(4) How to:

Browse Klydos

To browse the Klydo collection, press  button on your remote to open the menu and select COLLECTION. Use the right NAV button to view the next Klydo and the left NAV button to view the previous Klydo.

To browse your favorites, press  on your remote to open the menu and select FAVORITES. Browse as you would in the Klydo collection.

Use the **i** button to view the **Artist Info Block** of a Klydo you are currently viewing. Press any button after that to exit.

Add To/Remove From Favorites:

To add a Klydo to your Favorites, press the ♥ button when viewing a Klydo in COLLECTIONS. A heart will appear and shrink into a dot marker in the center to indicate the Klydo has been added to your FAVORITES.

To remove a Klydo, press the ♥ button and the center dot marker will pop and disappear, indicating that the Klydo has been removed from FAVORITES.

Navigating Settings

To navigate the settings, press ≡ on your remote to open the menu and select SETTINGS. When you enter the settings menu, the pendulum screen will show the **navigation guide**.

The Knob

Your Klydoclock comes equipped with a funky knob on the back! Turning the knob back and fourth allows you to adjust the clock hands while scrubbing through the animations frame by frame.

A single press of the knob will snap the hands back to the current time..

Charging the Remote Control

To charge the remote control, use a USB-C charger (5v - 12v). The LED indicator will flash red while charging. A steady blue light indicates a full charge.

(4) Troubleshooting:

A. My Klydoclock won't startup. All I see is a black screen.

- Check to see that your remote control is charged. If it isn't see D.
 - If your remote control is charged and your Klydoclock is not responding, press the Knob. If it starts up your Klydoclock, see D.
-

B. My Klydoclock keeps restarting over and over.

- With a straightened paper clip or a toothpick, press the reset button and hold it for 3 seconds.
-

C. My Klydoclock froze. I don't see any movement onscreen.

- Disconnect and reconnect your Klydoclock from power.
-

D. My remote doesn't work or has stopped working.

- Press any button and check for a light from the LED indicator.
 - If it lights up red: Charge your remote via the USB-C port.
 - If it lights up blue: Pair your remote to your Klydoclock by pressing and holding the Knob for 3 seconds. When the main display shows "pairing remote", press ♥ and **i** on your remote at the same time.
