Q: How to store video recordings with a camera

You can activate cloud storage services separately and automatically overwrite circular recordings based on the number of days in the cloud storage package

## Important clause

The product is subject to the actual product, and the manual is for reference only. The manual may contain technical descriptions that do not match the product's functionality.

Please understand any printing errors and refer to our company's final explanation for accuracy.

The APP version and product firmware will be updated periodically. If there are any updates, please do so yourself. Online upgrade without prior notice.

Please modify your username and password while using this product, and do not easily disclose them.

To prevent illegal users from stealing and infringing on personal privacy, our company does not assume any responsibility.

Legal Responsibility: Do not install this product in damp, dusty, high-temperature, flammable or explosive environments.

Places out of reach of children.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
