11. MAINTENANCE

Clean your baby monitor with a slightly damp or anti-static cloth.

12. DISPOSAL GUIDE FOR BATTERY AND PRODUCT

* Do not attempt to repair or adjust any of the electrical or mechanical functions of th

* Remember to dispose of the product in an environmentally responsible way * For proper collection and processing of these products, take them to the collection points designated by local authorities. You can also contact the store where you purchased the product.

proper or incorrect use of batteries may cause corrosion or battery leakage, which could cause personal injury or damage to property. Use only the types of the batteries

which are indicated in this manual CAUTION: Risk of Fire and Burns. Do Not Open, Crush, Heat Above 45 degree C or Inci ollow Manufacturer's Instruction

Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a batter that can result in an explosion.

Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.

A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

FCC& ISDE Statement

his device complies with Part 15 of the FCC Rules and with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1)this device may not cause harmful interference, and (2)this device must accept any interference received, ncluding interference that may cause undesired operation. Cet appareil est conforme à la artie 15 des règles de la FCC et aux normes RSS exemptées de licence d'Industrie Canada. Le fonctionnement est soumis aux deuxconditions suivantes : (1) cet appareil ne doit pas causer d'interférences nuisibles, et (2)cet appareil doit accepter toute interférence reçue, y comp

es interferences pouvant entraîner un fonctionnement indés. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This quipment generates, uses and can radiate radio frequency energy and, if not installed and

used in accordance with the instructions, may cause harmful interference to radio ommunications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or telev reception, which can be determined by turning the equipment off and on, the user is 9

encouraged to try to correct the interference by one or more of the following measures Reorient or relocate the receiving antenna.
 Increase the separation between the equipment and receiver

- Connect the equipment into an outlet on a circuit different from that to which the rece connected.

-- Consult the dealer or an experienced radio/TV technician for help. This device meets the exemption from the routine evaluation limits in section 2.5 of RSS 10 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF

exposure and compliance. cet appareil est conforme à l'exemption des limites d'évaluation courante dans la sectior du cnr - 102 et conformité avec rss 102 de l'exposition aux rf, les utilisateurs peuvent obt

des données canadiennes sur l'exposition aux champs rf et la conformité. This equipment complies with Canada radiation exposure limits set forth for an unco

Cet équipement est conforme aux limites d'expo

pour un environnement non contrôlé Radiation Exposure Statement for camera

his equipment should be installed and operated with minimum distance 20cm betwee radiator & your body.

Cet équipement doit être installé et utilisé à une distance minimale de 20 cm entre le radiateur et votre corps.

SAR Statement for Monitor

Specific Absorption Rate

This Monitor meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standard

include a substantial safety margin designed to assure the safety of all persons regardless age or health. ISED & FCC RF Exposure Information and Statement the SAR limit of Canada(ISED & FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: Monitor has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the Monitor kept 0mm from the body. To maintain compliance

with ISED RF exposure requirements, use accessories that maintain an 0mm separation distance between the user's body and the back of the Monitor . The use of belt clips, holst and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with ISED RF exposure requirements, and should be avoided. Informations sur le débit d'absorption spécifique (DAS):

Cette Moniteur répond aux exigences du gouvernement en matière d'exposition aux ondes radio. Les lignes directrices sont basées sur des normes élaborées par des organisations scientifiques indépendantes à travers une évaluation périodique et approfondie des étude entifiques. Les normes comprennent une marge de sécurité substantielle co assurer la sécurité de toutes les personnes, quel que soit leur âge ou leur état de santé. Information et déclaration d'ISDE sur l'exposition aux RF la limite DAS du Canada (ISDE) es

10

de 1,6 W / kg en moyenne sur un gramme de tissu. Types d'appareils: la Moniteur a également été testée par rapport à cette limite SAR. Cet appareil a été testé pour des opérations typiques portées sur le corps avec le dos de la Moniteur gardé à 0 mm du corp Pour maintenir la conformité avec les exigences d'exposition RF d'ISDE, utilisez des accessoires qui maintiennent une distance de séparation de 0 mm entre le corps de l'utilisateur et l'arrière de la Moniteur. L'utilisation de clips de ceinture, d'étuis et d'accessoires similaires ne doit pas contenir de composants métalliques dans son assemblage. L'utilisation d'accessoires qui ne satisfont pas à ces exigences peut ne pas êt onforme aux exigences d'exposition aux RF d'ISDE et doit être évitée.

EU Declaration of Conformity (DOC) Hereby, videotimes declares that the radio equipment type is in compliance with RED

Directive 2014/53/EU.
