### Charging Instructions

### Bluetooth connection

- When a new user uses the device for the first time, press and hold the power button for 3 seconds to turn on the watch. If the watch is connected to the charging stand, plug the USB port into the power adapter and connect the power adapter to the charging stand.
- To ensure a good charging contact, please ensure that the spring pins of the charging stand is aligned with the charging contacts on the back of the watch. Please make sure the watch is free from dirt and moisture.
- Press the power button on the watch screen. If the watch is not used for a long time, please make sure to charge it once a month.

①

- Turn on the Bluetooth of the mobile phone, find the 'Smart Watch' in the search results, and click the 'Pair' icon to connect the watch.

②

- Turn on the Bluetooth of the mobile phone, find the 'Smart Watch' in the search results, and click the 'Pair' icon to connect the watch.

③

- Turn on the Bluetooth of the mobile phone, find the 'Smart Watch' in the search results, and click the 'Pair' icon to connect the watch.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
