

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and
Board View 1**

**EUT Housing and
Board View 2**

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, likely a solder mask or a small board, placed on a blue textured surface. The component is rectangular with several small, dark, circular features (possibly solder joints or vias) visible. A black L-shaped ruler is positioned to the left and bottom of the component, providing a scale reference. The ruler has markings in millimeters and centimeters.
Solder Board-Component View 2	 A photograph of the same green PCB component from a different perspective, showing the underside. The component is rectangular with several small, dark, circular features (possibly solder joints or vias) visible. A black L-shaped ruler is positioned to the left and bottom of the component, providing a scale reference. The ruler has markings in millimeters and centimeters.

Board-Component
View 4**

Solder Board-Component View 5	 A photograph of a small, rectangular, yellow-green printed circuit board (PCB) component. The board is populated with various electronic components, including a large black integrated circuit (IC) in the center, several smaller surface-mount components, and a silver cylindrical component on the right. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 6	 A photograph of the same yellow-green PCB component from a different perspective. This view shows the underside of the board, highlighting the solder joints and the components mounted on the reverse side. The board is again placed on a blue textured surface next to a black ruler with white markings, showing measurements in millimeters and centimeters.

Solder Board-Component View 7	 A photograph of a green printed circuit board (PCB) with various electronic components, including a large black chip labeled 'A1'. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).
Antenna View	 A photograph of the same green PCB with a black antenna cable attached. A red line points from a red box labeled 'WIFI/BT Ant' to the antenna cable. The antenna cable is connected to a small black component on the board. The board is placed on a blue textured surface.
