Main Functions And Features

CORDLESS  
38 hours use  
without cords

Height adjustable  
(18cm-88cm)

2in1

Table and  
Pedestal

5-blade fan  
soft to strong

High capacity  
lithium battery

BLDC

Brushless motor  
silent and safe

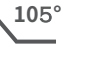

Fourth gear  
wind speed

Four timing  
schemes

60 degrees  
Auto Oscillation

105degrees Pitching  
Angle adjustment

1.Enjoy ref reshing anytime and anywhere

Wireless rechargeable folding portable fan for refreshing everywhere.

2.Over 38 hours use without cords

Equipped with 10000 mAh lithium battery, the endurance time is up to 20 hours.

3.Desktop fan and base fan are interated

Freely adjusted height between 40cm-88cm,used as both desktop fan and pedestal fan

4.Foldable design for easy storage and carrying

Fan can be putted into the storage bag to carryout,saving space,exquisite and ightweight

5.Four speed wind adjustable

From soft to strong, there are four wind speeds to meet various cooling needs

6.Low noise brushless motor

The noise generated by BLDC motor is 40 dB lower, like the landing of leaves.

7.Excellent fan blade design

All blades passes the balance test to obtain higher stability, and less noise.

8Automatic rotation about 60 degrees

Just press the button, the left and right rotation will start automatically.

9.Upanddown105 degreesfreefolding

The up and down angles can be adjusted freely according to the use environment.

10.Wireless remote control

The wireless remote control can control the fan from a distance sensitively.

11.Fourth gear timing function

You can preset the fan working time from 1 hour to 4 hours

12.Power bank function

The fan can charging your mobile phone, tablet and other electronic products.

Instructions For Use

Function and usage

1.Remote control code matching.

Turn on the LED light with the fan base button;  
Press and hold the rotary button of the fan base until the power and timing lights flash;  
Press the power control button of the remote control,  
fan start and code completion.

2.Switch on / off and wind speed control

Press once: turn on the fan  
Press 3 times: third gear wind speed  
Press 5 times: turn off the fan  
Press twice: second gear wind speed  
Press 4 times: fourth gear wind speed

3.Timing adjustment

Press once: The fan will turns off after one hour  
Press twice: The fan will turns off after two hours  
Press 3 times: The fan will turns off after three hours  
Press 4 times: The fan will turns off after four hours  
Press 5 times: The timing function will be turned off

4.Rotation control

Press once: start the fan rotating function  
Press twice: turn off the fan rotation function

5.Remote control

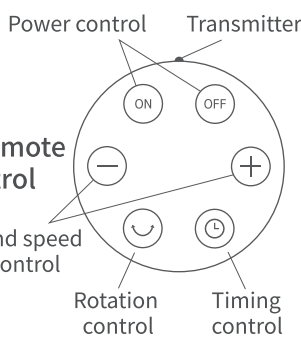

Press once: start the fan rotating function  
Press twice: turn off the fan rotation function

6.Charging instructions

1.Please use the attached charging cable for charging.  
2.Please use 5V / 2A adapter for charging.  
3.The charging indicator turns green to indicate that charging is complete.  
Remark:Please use the standard 5V / 2A adapter for charging or the circuit board may be damaged.

7.Remaining power display

When the fan is off, long press the power key and observe the base indicator  
1.One indicator light is on:remaining 30% power.  
2.Two indicator light is on:remaining 60% power.  
3.Three indicator light is on:remaining more than 90% power.

1.Do not remove the fan without repair personnel.  
2.Avoid serious impact and falling from height.  
3.When using the telescopic rod, stretch section by section and compress section by section slowly.  
4.Do not manually rotate the fan's head at a large angle.

Charging precautions

1.Please use 5V / 2A adapter for charging.  
2.The fan can charge while working, but it is not recommended to chargeand discharge while the fan is running

Precautions for battery use

1.Do not allow non maintenance personnel to remove the battery.  
2.Please discard the waste battery at the designated location to avoid environmental pollution.

Product Parameters

Product name	Portable Folding Pedestal Fan-H6
Model	Hebron-H6
Size and weight	301*260*880mm; 1.4Kg
Material Science	ABS,PP,Aluminum
Voltage,current	DC 5V/2A
Power	1.2-5W
Charging time	9.5h
Endurance time	10-38h
Charging port	TYPE-C
Battery	3.7Vd.c.,16000mAh
Fan speed	Four gear adjustment
Timing design	Four timing adjustable
Remote battery	3V CR2032 lithium battery(built-in)
Inventory	Fan, instruction manual, charging cable, pocket
Warranty	1year
Country of origin	China

Product parameters | 7

For faults caused by manufacturing defects and defects, a one-year free warranty is provided.

Warranty service will not be provided under the following situation:

1,Products beyond the warranty period;  
2,Product damage due to improper use;  
3,Damage caused by self disassembly and assembly of products;  
4,Replacement of consumable parts (battery) is required;  
5,The charging line is damaged (the charging line is a complimentary item and is not included in the warranty item);  
6,Damage caused by product falling and impact;  
7,Damage caused by natural disasters (flood, fire, etc.);  
8,In addition, the product is damaged due to failure to follow the operation instructions.

In addition, the products have no quality problems and will not be returned or refunded

Quality Assurance

Please read the instructions carefully.Warranty card is required for entrusted repair. Only one warranty card is sold with the product. Please keep it properly.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
