Portable Karaoke Machine
Use manual

Improper use of the battery can lead to an explosion, fire, or burns. Please read the following precautions:

● Do not disassemble.
● Do not subject the product to any shock or external force, such as hammering, dropping, or stepping on it.
● Avoid immersing the product in water to prevent damage.
● Keep the product away from high temperatures, heat sources, and direct sunlight.
● Do not handle damaged or leaking batteries. Keep them out of the reach of children, ensure they stay dry, and if you notice any signs of damage, cease usage and contact the supplier.
● Avoid placing the machine in direct sunlight and keep it away from any direct heat source.
● Do not force an TF card or USB drive into its slot. TF cards and USBdrives can only be inserted in one direction. If the card/drive does notinsert easily, remove it and try reinserting it in the opposite direction.
● Charging should only be done by adults.

PRODUCT SPECIFICATIONS
Product Name: Portable Karaoke Machine
Charging voltage: 5V⎓1A
Frequency response: 60Hz-18KHz
Bluetooth transmission distance: Straight-line distance of 10 meters
Maximum sound pressure level: >115DB1
Built-in lithium battery voltage: 3.7V
Speaker: 57mm 4 6W 50-diaphragm
Distortion: ≤0.5%
Frequency range: 100Hz-10HKHZ TDH<1%
Reverberation mode：audio effect reverberation

⚠ **WARNING**
CHOKING HAZARD -Small parts.
Not for Children under 3 yrs.

FAQ：
1. Question: The speaker cannot start up normally.
Please check if the power adapter is inserted correctly and ensure the socket is functioning. If the issue persists, you may need to replace the power adapter or contact customer support.

2. Question: Unable to connect via Bluetooth to other devices.
Ensure that the speaker's Bluetooth function is turned on, check the Bluetooth settings on other devices, and try re-pairing. If the problem persists, confirm the distance between devices and check for any interfering signals.

3. Question: Distorted or intermittent sound during audio playback.
Check if the Bluetooth connection is stable and adjust the distance between the speaker and the connected device. Ensure there are no obstacles blocking the signal between devices.

4. Question: The microphone is not working properly.
Check if the microphone is correctly connected and ensure the microphone switch is turned on. If the problem persists, you may need to replace the microphone or contact customer support.

5. Question: The speaker cannot recognize audio files on a USB flash drive or TF card.
Ensure that the audio file formats on the USB flash drive or TF card are supported, and check if the files are stored in the correct folder. Try reconnecting the USB flash drive or TF card to ensure a stable connection.

6. Question: Issues with adjusting the reverb effect.
Ensure that the button operation is correct; enter adjustment mode by double-tapping the button and use the +- keys for adjustment. If the problem persists, consult the user manual or contact customer support for assistance.

7. Question: Abnormal charging indicator light.
Check if the charging cable and connection port are normal, and try using another charging device. If the indicator light remains abnormal, you may need to replace the cable or contact customer support.
