-Headset charging box charging indicator light: Place the headset in the charging box and close the lid to charge. The green light stays on during charging and turns off when fully charged.
-Charging indicator light on the charging box: The orange light flashes and stays on for a long time when fully charged.
-Charging box low battery reminder: The LED flashes

Universal wireless connection operation

- 1.Please place the wireless headset and mobile phone (or other connected devices) together;
- 2.Make sure the earphone is powered on, open the charging box cover or remove the earphone from the charging box, make sure the left and right earphones are connected, the earphone can enter the pairing mode;
- 3.Activate the wireless function of the user's mobile phone (or other wireless device) and search or scan. At this time, the mobile phone will search for all nearby wireless devices. Click on the corresponding wireless model name to connect. After successful pairing and connecting, you can make a call with headphones, listen to songs, etc.

Considerations for wireless connection

- 1.Please control the distance between the wireless headset and mobile phone (or other connected equipment) within 1 meter, the closer the better;
2. You can put the headset into the charging box and open the cover of the charging box to connect it;
- 3.When you take the headset out of the charging box and connect it, make sure the left and right earphones are connected;
4. Do not close the lid of the charging box during the connection process. The charging box must have sufficient power. If the headphones cannot turn on when you open the lid, place them in the charging box, close the lid of the charging box and plug in the charger to charge for at least one hour;

Precautions

1. Never use corrosive cleaning agents to clean this product;
2. Do not allow this product to get hot or close to sources of fire, such as cookers;
3. Do not expose this product to direct sunlight for a long period of time to avoid high temperatures;
4. Do not dispose of this product in fire to avoid explosion;

5. Do not attempt to disassemble this product for modifications, as it contains no serviceable components;
6. Do not use this product in the rain;
7. If you do not plan to use this product for a long period of time, store it in a dry place and charge the headset at least once a month to prolong its life and to avoid temperature extremes and dust.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause

harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

FCC Radiation Exposure Statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
