

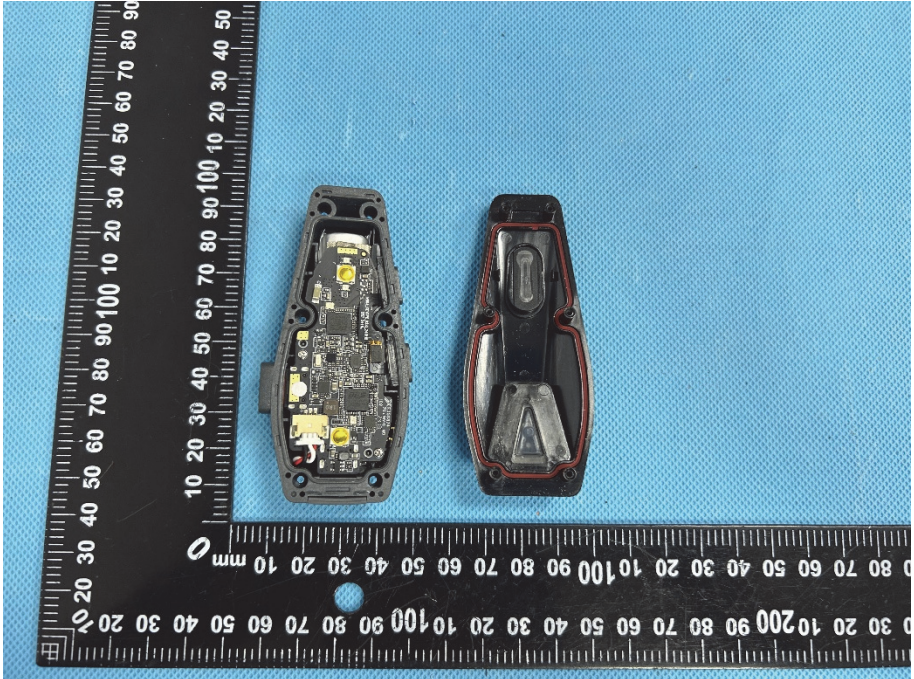

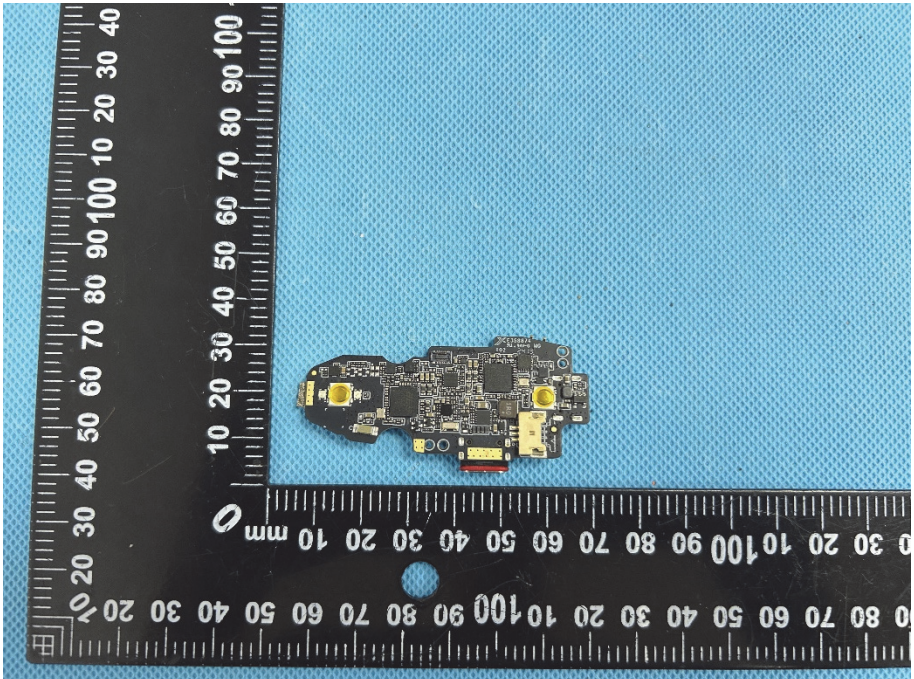

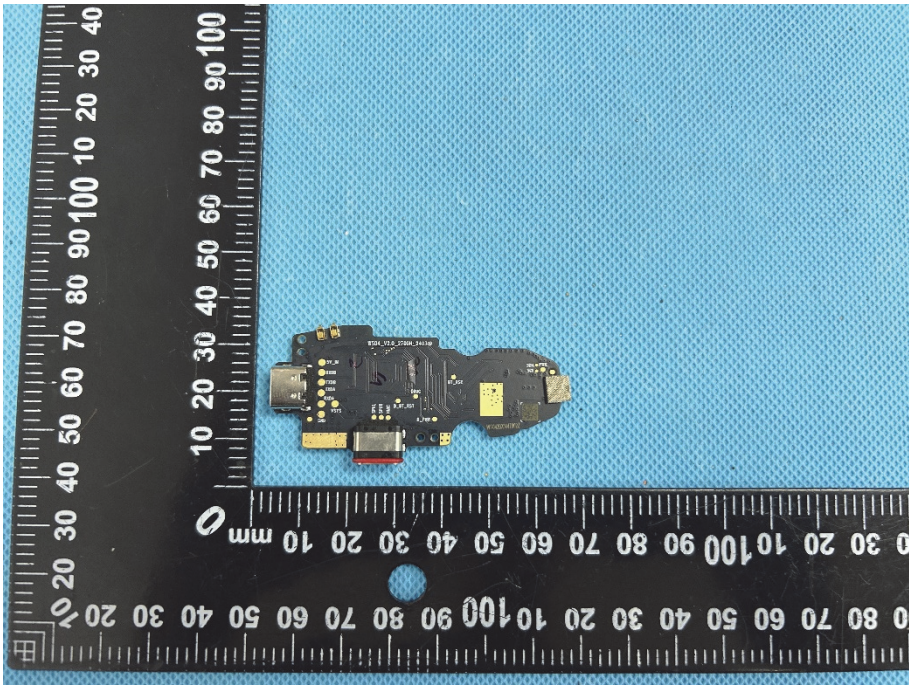

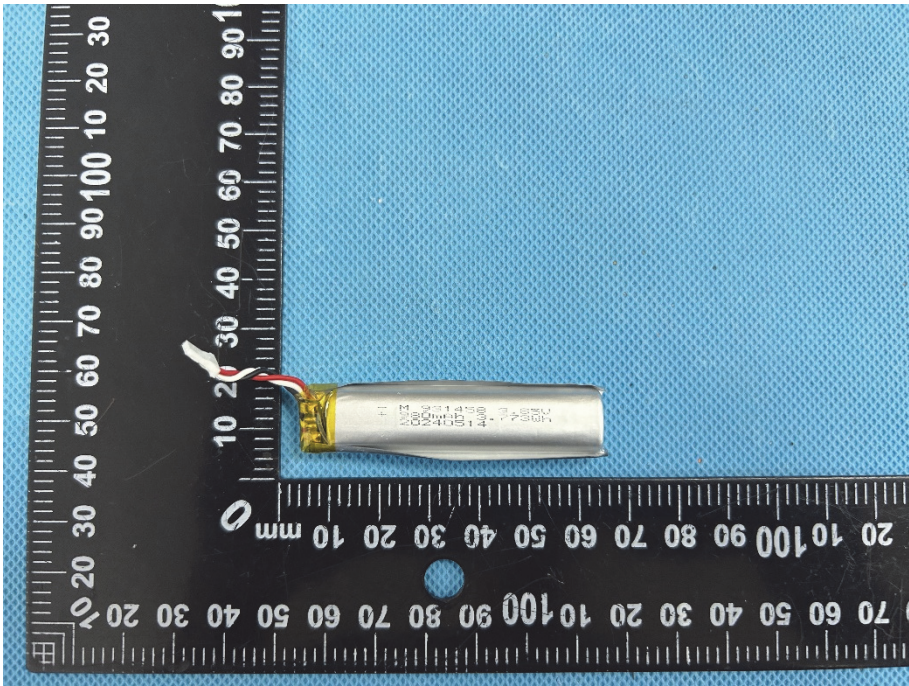

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

Model: S2

<p>EUT Housing and Board View 1</p>	 A photograph showing two views of the EUT housing and board. On the left is the housing with the board inside, and on the right is the empty housing. A black L-shaped ruler is placed next to them for scale, with markings in millimeters. The background is a blue textured surface.
<p>Solder Board-Component View 1</p>	 A close-up photograph of the solder board-component. The board is populated with various electronic components, including a large integrated circuit, capacitors, and connectors. A black L-shaped ruler is placed next to it for scale, with markings in millimeters. The background is a blue textured surface.

<p>Solder Board-Component View 2</p>	 A photograph of a small, dark-colored printed circuit board (PCB) component. The component is rectangular with several gold-plated pins and connectors. It is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The component is positioned roughly between the 10mm and 40mm marks on both the horizontal and vertical axes of the ruler.
<p>Solder Board-Component View 3</p>	 A photograph of a cylindrical component, likely a battery or capacitor, with a silver-colored metal casing. It has two wires (one red, one white) extending from one end. The component is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The component is positioned roughly between the 10mm and 40mm marks on both the horizontal and vertical axes of the ruler.
