

FCC Modular Approval Attestation

FCC ID: 2BEK7WHM200A is seeking FCC equipment authorization as

Single Modular Transmitter / Single Limited Modular Transmitter

Product Information table with columns: Product Description, Model Name(s), FRN, FCC Product ID, FCC Module ID.

Modular Checklist/Information

For Modular Approval, the module shall meet all the requirements listed below. Please check (X) if the module complies with the stated requirement.

- Checklist of 8 requirements for modular approval, including shielding, buffered modulation, power supply regulation, antenna requirements, stand-alone configuration, FCC ID labeling, specific rule compliance, and RF exposure requirements.

\*Limited module note: This module does not have its own power supply regulation. Therefore, Host product in which this module is installed must have the capability to provide the rated power supply as described in installation manual.

If a module(s) does NOT meet one or more of the above listed requirements, the applicant may request Limited Modular Approval (LMA). For LMA, please state details about why the above requirement(s) could not be met; and state how control of the end product, into which the module will be installed, will be maintained by the applicant / manufacturer, such that full compliance of the end product is always ensured:
