Add Device-Normal mode

In the main application page,click on the top right corner "+" to next window page and then choose Lighting,as shown below. In normal mode,please confirm that the device red light is quickly blink and then into the next step.

Note:
If the light is not flash, please power on your device, and then power off (repeat 3 times),until the red light will quickly blink , also you can long press the "ON" button of the infrared remote control（5~10seconds）,until the red light will quickly blink.

If add the device in Normal mode fails many times,please go to Add Device-AP mode

---

Add Device-AP mode

In the main application page,click on the top right corner "+" to next window page and then choose Lighting,as shown below.

In normal mode, click on the top right corner "AP Mode" to AP Mode window page.

In AP Mode,please confirm that the device red light is slowly blink and then into the next step.

Note:
If the light in quickly blink,just press the controller with 5-10 seconds again,and the red light will slowly blink.

If the light neither slowly blink nor quickly blink. First press the "mode" key of the controller with 5-10 seconds to keep the red light in the quickly blink .Second release the button and then press the controller with 5-10 seconds again,the red light will slowly blink.

How to use Bluetooth connection

1. For first time use, you need to use WIFI to complete the above operation settings.

2. After completing the setting, if the WIFI signal disappears or is turned off during use, please turn on the Bluetooth function of the mobile phone. The mobile APP will automatically connect to the WIFI controller and you will be able to continue to operate all functions in the APP normally.

Control devic

After successfully connecting the devices,the related smart device will be shown on the home page.Tap to enter its control page

Note:
1. when device is online,it supports quick operations.
2. when device is offline, it displays "Offline".and can not be controlled.

Color   Mode   Music

Timer

⚠ Tips for outdoor use:

1. The power supply and controller are not water-proof.
2. It is recommended to install on wall, under the eaves or on the bottom of railings.

Tips for installation:

Avoid use of sharp objects like knife, on the surface of the light strip

Adhesive backing is not restickable. Reuse will reduce the adhesion.

Please do not fold the light strip. A turning should be in arc shape, or it will damage the internal circuit.

Scan code on the controller to download App.

Key points to put up

① Stick the LED strip on suitable surface

② Use alcohol pad to clean and prepare

③ Peele the light end, screwdrive and adaptor cord with the clips provided first.

④ Remove the light strip adhesive backing bit by bit

⑤ No pressing on the turning when should be in arc shape

⑥ Fully stick the light strip in place

Press the whole LED strip repeatedly

Installation finished

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
Cet équipement est conforme aux limites d'exposition aux rayonnements IC définies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps.

- English:
This device complies with Industry Canada licence-exempt RSS standard(s).
Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

- French:
Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:
(1) l'appareil ne doit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
