Statement

1. Due to the design of the Printpen product itself, the product surface cannot accommodate a label, which is placed inside the ink cartridge compartment;
2. When the Printpen product is sold, it does not include an ink cartridge, or it is sold separately from the ink cartridge. Therefore, consumers can check the FCC ID at the ink cartridge compartment when purchasing the printer;
3. During the use of the Printpen product, when replacing the ink cartridge, the used-up ink cartridge must be removed first before inserting a new one. During this process, the FCC ID can also be viewed.
