

## Test Setup Photos of the EUT

### Test Setup Photo(s) of Radiated Emissions Measurement

Fig. 1

Fig. 2

## A photograph of a laboratory setup. In the foreground, a light-colored wooden table holds an orange and black oscilloscope. To the right of the table, a large silver power supply unit is connected to a smaller electronic device, possibly a signal generator or another power supply, via black cables. In the background, a white shelving unit holds a computer monitor displaying a waveform, likely from the oscilloscope. The wall behind the setup is covered in a dark, textured material, possibly a chalkboard or a protective sheet.
