- USB C charging cable ----- 1
- User Manual ----- 1

Installation

- 1 Plug ishareiOS adapter into your HDTV
- 2 Connect USB C charging cable with ishareiOS and the 5V/1A wall charger.
- 3 Switch TV input/source to the HDMI and choose the corresponding HDMI port plugged.

Connection

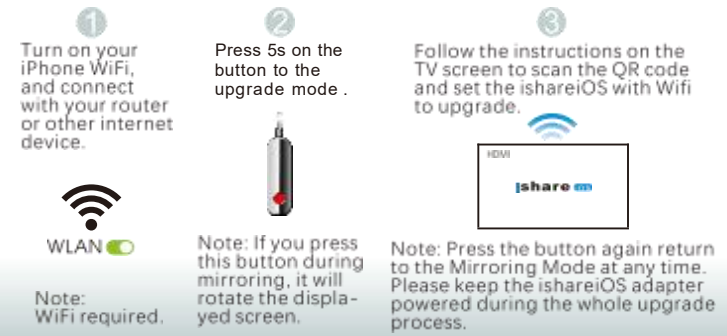

- 1 Turn on the iPhone WiFi or cellular data.
- 2 Swipe down from the right top of the iPhone screen or swipe up from the bottom and then tap "Screen Mirroring".
- 3 Tap "ishare", and enjoy.

Note: PIN code 1234 is required for first time use.

Upgrade

- 1 Turn on your iPhone WiFi, and connect with your router or other internet device.
- 2 Press 5s on the button to the upgrade mode.
- 3 Follow the instructions on the TV screen to scan the QR code and set the ishareiOS with Wifi to upgrade.

Note: WiFi required.

Note: If you press this button during mirroring, it will rotate the displayed screen.

Note: Press the button again return to the Mirroring Mode at any time. Please keep the ishareiOS adapter powered during the whole upgrade process.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radiofrequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.
