## Kind tips

1. Dear user, for you to have a better experience with this product, please fully charge it before use.
2. Please use a DC5V charger and a computer to charge the headset. Do not use DC9V, DC12V, or DC24V to charge this headset.
3. If this product is left idle for a long time, please charge it once within 2 months to ensure good battery performance.
4. After wearing this product for exercise, it is recommended to use a dry towel to clean the sweat and water stains on the surface of the product, and leave it for 2 hours. Make sure that the charging port is dry before charging the earphones to prevent sweat short circuit during the charging process from affecting the service life of this product.
5. Listening to music at high volume for a long time may cause discomfort. Please use a medium volume as much as possible and avoid listening at high volume for a long time.
6. Do not throw or press the headphones; keep them away from fire and high-voltage equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement

The device has been evaluatec to meel general RF exposure requirement. The device can be used in porlable exposure condition without restriction.
