## SMART WATCH APP DOWNLOAD AND CONNECTION

Scan the QR code above to download

### INSTRUCTIONS FOR USE

1.Download the "FitCloudPro" APP on your mobile phone and install it. You can scan the QR code in this manual, or scan the QR code on your watch, or directly search for "FitCloudPro" in the APP mall to download.
2.Connect the smart watch
1) Scan the QR code to connect: After the mobile phone turns on the Bluetooth, enter the APP (Note: If the APP cannot be opened, please turn on the positioning of your phone and then open the APP) Click on the device -> Click on 'Add Device' -> Click on 'Scan QR Code Binding' Scan the QR code on the watch.
2) Manual Connection: After the mobile phone turns on Bluetooth, enter the APP (Note: If the APP cannot be opened, please enable the mobile phone positioning function and then open the APP) Click 'Device' -> Click 'Add Device' -> Click 'Search Device' (Find the corresponding item in "Settings" -> "System" -> "System Information" in the watch sliding control center Bluetooth name and MAC address of the device -> Click 'Connect'.
3) Connect to Bluetooth call: In the initial state of the watch, the Bluetooth call is turned off, and the call and music functions cannot be used at this time. Slide down to open the 'Control Center', click the 'Telephone' icon, turn on the audio mode, and then turn on the Bluetooth call in the mobile phone system (when the mobile phone's Bluetooth is turned on/down), find the corresponding Bluetooth name, and click 'Connect'. After the connection is successful, the call and music functions can be used normally.

## FUNCTION INTRODUCTION

▶ After the smart watch is connected to the APP, you can set a single mode alarm clock, a cycle mode alarm clock, and a maximum of 5 alarm clocks.

▶ Click the start button to start timing, click the pause button to pause the timing, and click the reset button to reset the timing to zero. Up to 99 pieces of data can be saved.

▶ After the device is connected to the APP, turn on the women's health reminder on the APP, and you can view the women's health reminder information on the watch.

▶ When entering the heart rate measurement interface, the bottom green light lights up to start the measurement, and there will be a vibration reminder when the measurement is completed in about 40 seconds. If it prompts "not wearing the watch", you need to re-wear the watch.

When entering the blood oxygen measurement interface, the red light at the bottom lights up to start the test for 30-60 seconds, and there will be a vibration reminder when the measurement is completed. This measurement is a measurement based on PPG technology.

▶ After the device is connected to the APP, open the relevant message push on the APP port, the device port can receive the corresponding message push, and can save up to 15 recent messages.

▶ Options for sports mode: walking, running, hiking, cycling, basketball, soccer, badminton, etc., click the icon to start the exercise interface.

▶ The functions of settings include: display (switching watch face, brightness, screen time, raise to wake), menu style, language, vibration & ring, date&time, battery, QR code, password and system.

▶ After the device is connected to the APP, it can control the pause and start of the mobile phone music player, adjust the volume and switch songs.

You can set the 'Sedentary reminder' to be turned on in the APP. After turning it on, you can set the start, end time, and do not disturb time period.

▶ After the device is connected to the APP, click to find the mobile phone, the mobile phone will ring to indicate that the search is successful; if the watch is not connected to the APP, the watch will prompt that it is not connected.

▶ Overview of functions: Do not disturb, brightness, settings, find mobile phone, power saving mode, voice assistant, system information.call & media audio switch.

In the timing function, the system presets the commonly used timing duration. Users can click the corresponding duration to quickly time the timing, or click the custom button to set the time. Click the start button to start the timing, click the pause button to pause the timing, click the reset button to reset the timing to zero.

Display the sleep monitoring status of the day, and the data is updated every day. When connecting to the APP, the data can be saved synchronously, and the device will recalculate the data information of the new day.

▶ Press and hold for 2 seconds on the main interface screen to enter the watch dial switching interface, slide left and right to switch the watch dial, and click.

▶ Display the number of steps, distance, and calories recorded on the day. You can set the target number of steps, distance, and calories in the APP.

## FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

▶ -Reorient or relocate the receiving antenna.
▶ -Increase the separation between the equipment and receiver.
▶ -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
▶ -Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction

### Notice:

1) Do not charge in a humid and watery environment.
2) Please regularly clean the magnetic charging hole on the back of the watch with a clean flannelette to ensure that the magnetic charging hole of the watch fits the magnetic charger to ensure normal charging.
3) This product is not equipped with a power adapter. In order to ensure the safety of family members and property, you can use the computer USB interface or choose a power adapter with an output of no more than 5V......1A when charging. Please buy power adapters through regular channels, and avoid using low-quality, fake power adapters to avoid bursting or fire.
