

SIZE:93*134MM

ANTI-GRAVITY HUMIDIFIER

Instruction Manual

Please use purified water

Do not use alcohol essential oil aromatherapy,etc

Thank you for choosing this product. In order to give full play to the product functions, please read this manual carefully before use. And please keep it securely for easy reference.

IMPORTANT POINTS TO NOTE

In order to ensure the quality of the product, before leaving the factory will be solid water test, after receiving the product has a small amount of water droplets residue, is a normal phenomenon.

The shape and spacing of each water droplet in the product are different, and it is normal that the water droplet produced by each product is different. As the gas in the water pipe is not exhausted, it is normal for the water droplet to have a delay (water droplet does not form) when starting the machine, and the delay is about 30s-60s. Left and right, the water will form naturally, please be patient.

If the water in the tank is dried, the power will be automatically cut off in the case of no water.

AFTER-SALES SERVICE CARD

Product Name: _____

Date of Purchase: _____

Name: _____

Contact Address: _____

Distributor Address: _____

Distributor Name: _____

Distributor Contact Number: _____

We implement paid services for the following situations:

Users modify or install other functions the damage caused by the repair and disassembly of the faulty machine; Improper transportation and storage by the user or failure to follow the instructions damage caused by required use; The warranty certificate is altered; Without warranty certificate and valid invoice or major parts Exceeding the corresponding warranty period.

Tips:

1. This product warranty card is the only proof of product warranty. Please keep it properly
2. The relevant product warranty regulations shall be subject to the terms of After-sales Service

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 (1) This device may not cause harmful interference, and
 (2) This device must accept any interference received, including interference that may cause undesired operation.
