

Product overview

Status LED indicator overview

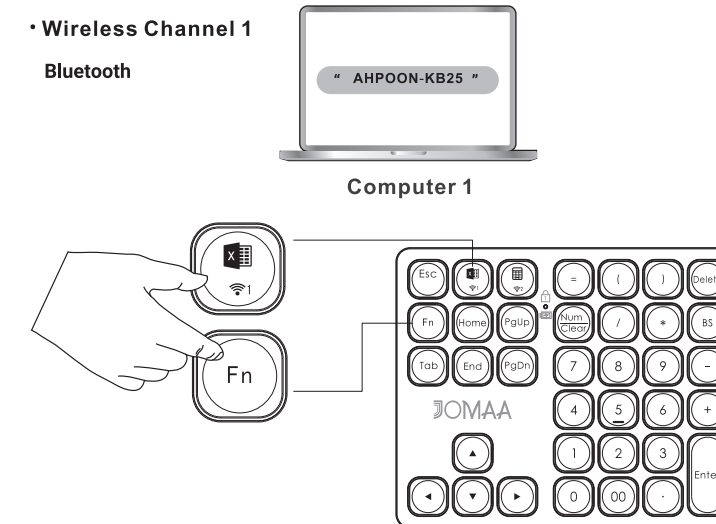

Pattern	ON/OFF	Status
Constant blue	ON	Num lock on
No light	ON	Num lock off
Constant green	OFF	Charging
No light when charging	OFF	Fully charged
Constant cyan	ON	Num lock + charging
Blinking 3 times	ON	Low battery
Blinking fast	ON	Bluetooth pairing mode

Charge keypad

Installation

- Wireless Channel 1 Bluetooth

- Wireless Channel 2 Bluetooth

Technical Specifications

Dimension: 146*119*4 mm	Working current: <2.5mA
Weight: 143.9 g	Standby current: <1.1 mA
Working distance: 10 m	Sleep current: <50 uA
Keys: 36 keys	Sleep time: 10 minutes
Working voltage: 3 V	Battery capacity: 230 mAh

Status Display LED

Low voltage indicator: when the voltage is lower than 3.2V. Green light will flash.

RF exposure statement

This equipment complies with the FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate

radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
