Product Parameter

functional use	Caller ID, wallpaper, message alert, MP3 playback, built-in memory, ENC dual microphone call noise cancellation
Bluetooth version	V 5.3
horn (automobile etc)	13mm
screen	2.01 TFT
(level of) sensitivity	103±3dB
Bluetooth reception distance	≥10M(Accessibility)
Frequency Range	20HZ-20KHZ
impedance	32Ω±15%
Transmission range	2400.0- 2483.5MHz
Supported Protocols	HSP/HFP/ADP/5BC/ACC/AVRCP
transmission frequency	2.4GHZ-2.483 5G HZ 5MBand
Headset charging time	1h(earphones),reduce2h(battery compartment)
playing time	5.5-6h(100%loudness)
airtime	5-6 H(60%loudness)
endurance	In the Bluetooth headset and mobile phone to open the connection (stand call length, about 1-4 hours (Siri not available))
Product working temperature	-10-50°C
Product Storage Temperature	-20-55°C
	Rated input of earphone: dC5v350mAh Rated input of charging chamber: dC5v1600mAh

Product Safety Information

Please read all instructions and warnings before using this product, unregulated use will cause damage to the product or personal safety.

- The product contains a battery, do not expose the product to strong sunlight or overheating such as a furnace. Do not store the product in high temperature, strong light and strong magnetic field environment. Do not store the product in high temperature, strong light and strong magnetic field environment.
- The product should not be placed in a harsh environment such as near a fire source. Prohibit knocking, throwing, trampling, squeezing or putting into the fire, if there is bulging, please do not use.
- The ambient temperature of the product is 0-45°C.
- Please do not violate the product instructions improper use, resulting in product damage or endanger the safety of personal property, the consequences of their own responsibility.
- Non-professionals are strictly prohibited from disassembling the product, which may result in fire or even complete damage to the product.
- Please do not use the product beyond the output current load (electrical appliances), beyond the load will automatically stop working.
- Please use a clean cotton cloth to clean the charging contacts of the headset regularly, in order to avoid the headset can not be charged or switched on due to the long term not clean, to prevent the headset from not charging or switching on due to long-term uncleanness.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
