6. Function operation description

6.1 On/Off key

- Power on: Press and hold for 3 seconds, hear the voice prompt "Power on", and the red and blue lights of the M key flash alternately
- Power off: Press and hold for 3 seconds, and hear the voice prompt "Turn off". The blue light on the M key flashes twice and goes off
- Pairing: After turning on, the red and blue lights on the M key flash alternately. Open the Bluetooth search on your phone, find the name "X9", click on the connection, and hear a voice prompt "Connection successful". The blue light on the M key flashes slowly, and the pairing is complete.
- Chinese and English voice switching: Double click and hear a prompt sound before turning on the unpaired phone.
- Answer call: In the incoming call state, press briefly once to answer the call. (No need to operate buttons in automatic answering mode)
- Terminate call: In call mode, briefly press once to end the call.
- Redial call: Double click to redial the last call when the connection is successful.
- Reject call: In the incoming call state, press and hold for 2 seconds to reject the call.
- Music playback: Short press in music mode.
- Music pause: Short press in music mode.

6.2 M key

- Breathing light: Short press the M button in a cycle, the breathing light will flash slowly, quickly, turn off, and turn on

5

- Voice Assistant: After successful pairing, double-click the M key to wake up the phone's voice assistant

6.3 Volume plus key

- Volume up: In music/call mode, press and hold until you hear the "thump" sound to end the adjustment.
- Previous song: Short press once while playing music
- Automatic/manual answer switching: After successfully connecting, double-click and hear a "dong" sound to indicate successful switching.

6.4 Volume reduction key

- Volume reduction: In music/call mode, press and hold until no sound is heard, and then adjust.
- Next track: Short press once while playing music

6.5 Charge indicator

- The on/off button lights up red when charging, and the red light goes out when fully charged.

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
