Bluetooth connection instructions

Initial connection:
After the speaker is turned on for the first time, the default Bluetooth pairing mode is used. At this time, please turn on the Bluetooth function of the Bluetooth device and search for the Bluetooth name "KM02", When the connection is successful, the prompt tone "Bluetooth is connected" is displayed.

Automatic connection:
After a Bluetooth device is connected, the speaker automatically searches for and connects back to the last connected device, and the "Bluetooth Connected"tone is displayed. If the connection fails, it automatically enters the Bluetooth to be connected state. If the connected Bluetooth device and speaker are disconnected, return within 10 minutes The Bluetooth effective range to the speaker can be automatically connected back.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 1 5 of the FCC Rules.These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions

(1)This device may not cause har mful interference.
(2)This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
