BT SPI USB Led Controller

Ⅰ.ProductParameter:

Category	LEDController
DominationPrinciple	BT
APP	ZENGGE
PartNumber	ZJ-YBCUAS-HCQ2-1K-Z
OperationPlatform	Android6.0orIOS11
InputVoltage	5V
MaxOutputPower	144W
LEDDriveType	WS2812B,SM16703,SM16704,WS2811, UCS1903,SK6812,INK1003,UCS2904B
WorkFor	PixelLEDStrip
ConnectMethod	CommonAnode
WorkingTemperature	-20~+55°C
ControlDistance	Visibledistance30M
Certification	CE,RoHS,FCC
Warranty	1Year
NetWeight	10.5g
Dimension(L*B*H)	74MM*19MM*15MM

I. Key Instruction

Speed/brightness reduction

Speed/brightness increase

Static color switching

Three colors static colorful

Open/close mode

Rainbow flow pattern

Building block pattern

Mode increase/decrease

Music mode 1-4

On/Off

Auto mode

Seven static colors

Left/right meteor mode

Left/right running pattern

It shuts down periodically after 1 hour

Shut down at a scheduled time after 30 minutes

LED Controller

II.About Settings：

In the setting interface, you can set the IC model, color correction, number of points(Total number of points can not exceed 300 in each segment and total LED chips quantity can not exceed 2048)

# III.Detailed introduction of APP functions：

1) Multi color function

The color of the light can be adjusted by the whole and each segment. App provides different columns for color selection or editing, and the brightness can also be adjusted. In the segmentation interface, users can freely smear or erase the color of each segment, and also set the gradient effect.

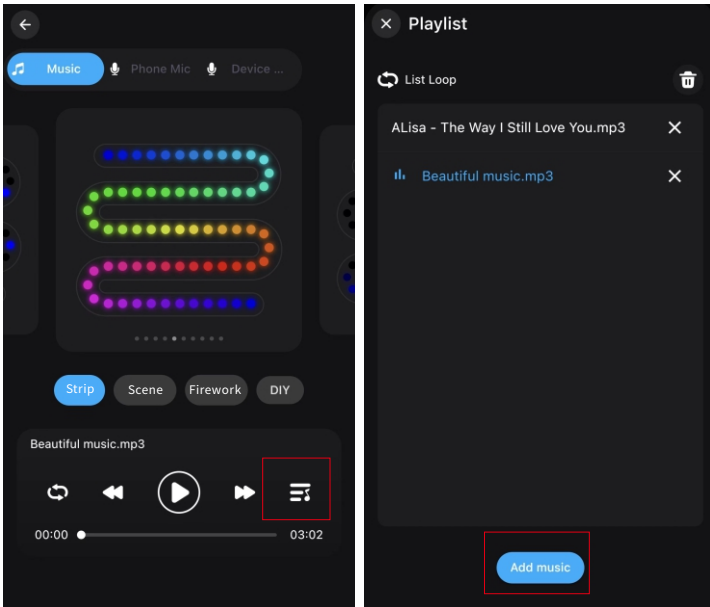

2) Scene settings

There are Four Build-in scenes: "Life", "Scenery", "Festivals", "Mood", and click "DIY" or "Collection" to create your favorite light effect.
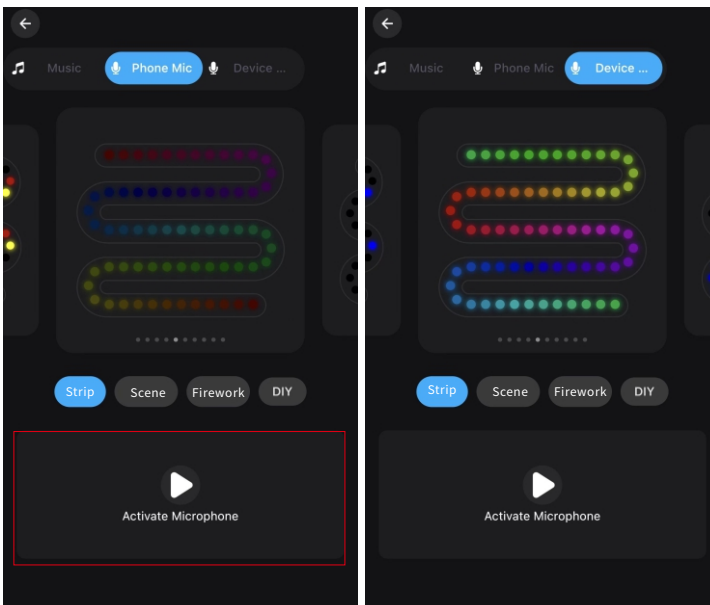

3).Music Mode

1.Synchronization function of lighting and music rhythm.

Click "Add Music" > Import a music file or import it from the built-in music library.

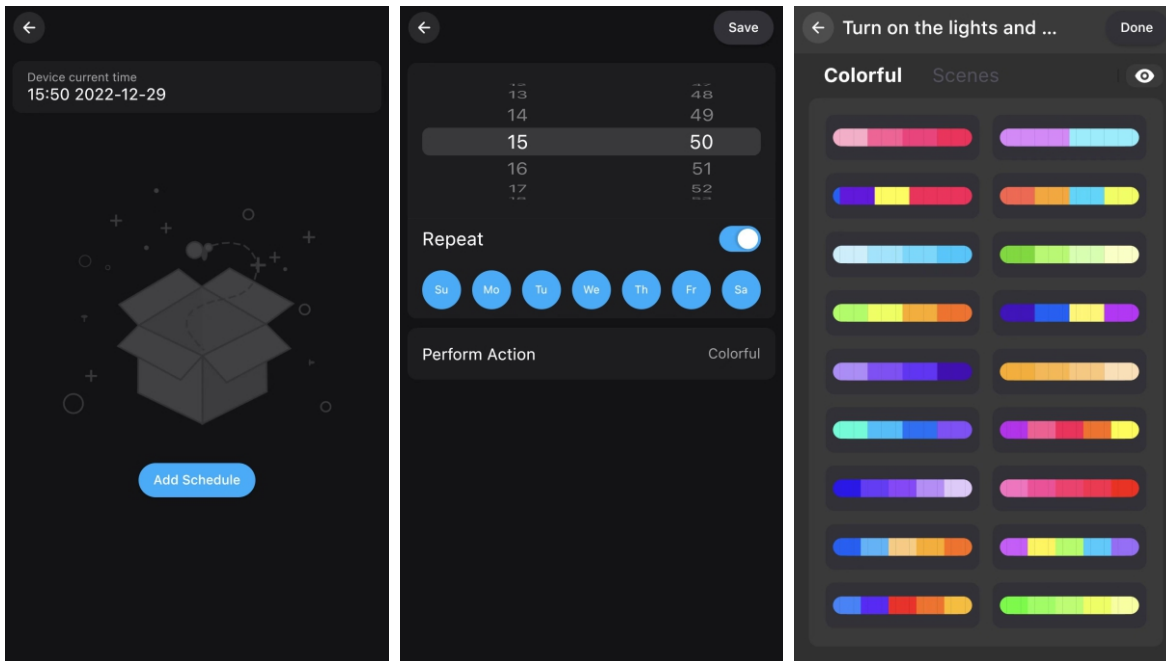

2.MIC

The lights color will change with the sound rhythm when your phone microphone catches the sound. The microphone sensitivity can be adjusted by the slider.There are two ways to input the audio signal on the controller, built in APP microphone and external microphone(For sound control version).
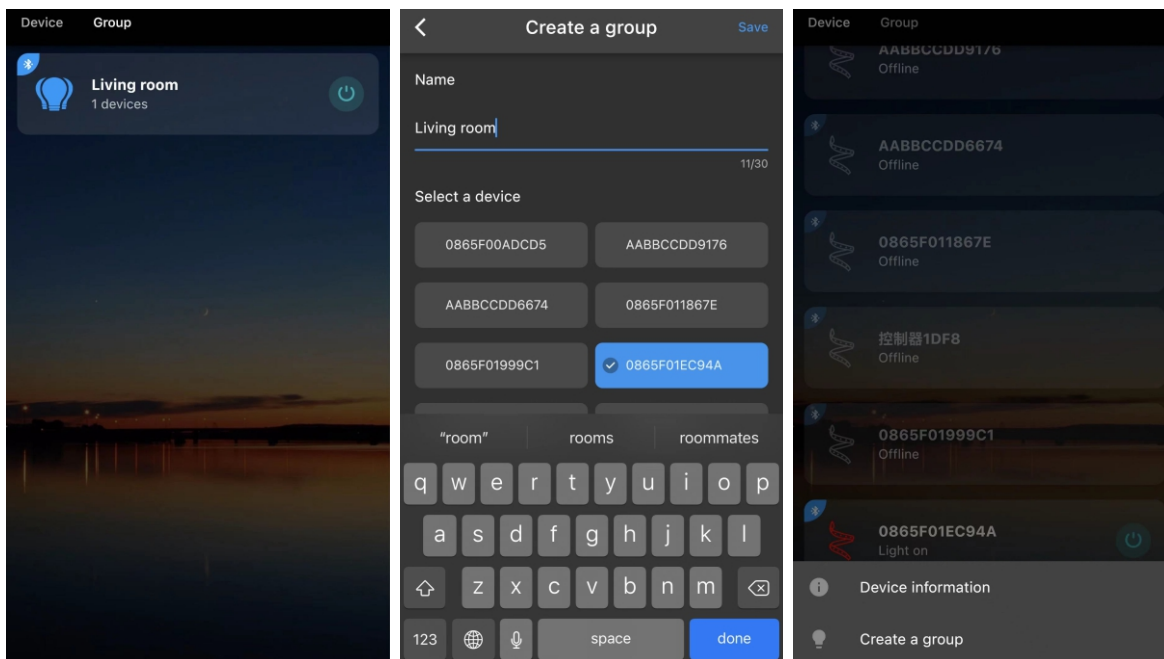

4) Light timer

Smart lights automatically come on and off at given times through the timer function, choose your favorite effect and color then save it

5) Group Control

This mode allows you to create different groups to control more than one controllers at the same time.

Attentions

a) Please use the product in a dry environment. b) For input voltage, please use the DC voltage within the specified range as instructed in the manual, must not connect into 220V AC directly. c) The product is requested common anode connection. The wrong connection will cause a malfunction.

Scan the below QRcode to download "ZENGGE" free APP.

If there are any other questions, please scan the below QRcode to see more detail operations.

Attentions

a) Please use the product in a dry environment. b) For input voltage, please use the DC voltage within the specified range as instructed in the manual, must not connect into 220V AC directly. c) The product is requested common anode connection. The wrong connection will cause a malfunction.

FCC Warnning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection againstharmful interference in a residential installation. This equipment generates, uses and can radiateradio frequency energy and, if not installed and used in accordance with the instructions, maycause harmful interference to radio communications. However, there is no guarantee thatinterference will not occur in a particular installation. If this equipment does cause harmfulinterference to radio or television reception, which can be determined by turning the equipmentoff and on, the user is encouraged to try to correct the interference by one or more of thefollowing measures:

• Reorient or relocate the receiving antenna.

• Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
