Remind to Drink

The smart watch will remind you "Time to Drink Some Water" at the planned drinking time. Note: You can set the feature in the APP.

Getting to Know Your Device

1. Using in Wet Conditions
Your device is water-resistant, which means it is rain-proof and splash-proof and can stand up to even the sweatiest workout.

NOTE: Do not swim with your Smart Bracelet. We also don't recommend showering with your wristband; though the water won't hurt the device, wearing it 24/7 does not give your skin a chance to breathe. Whenever you get your bracelet wet, dry it thoroughly before putting it back on.

2. Using Quick View
With Quick View you can check the time or the message form your phone on your Smart Bracelet without tapping. Just turn your wrist towards you and the time screen will appear for a few seconds.

General Info & Specifications

1. Environmental Conditions
Operating temperature: 14°F to 122°F (-10° to 50°C)
Non-operating temperature: -4°F to 140° (-20° to 60°C)

2. Size
Fits a wrist between 5.5 and 7.7 inches in circumference

3. Disposal and Recycling
Please kindly be aware that it is the consumer's responsibility to properly dispose and recycle Smart Bracelet and accompanying components. Do not dispose of Smart Bracelet with common household waste, the Smart Bracelet unit is considered electronic waste and should be disposed of at your local electronic equipment collection facility. For more information, please contact your local electronic equipment waste management authority or the retailer where you bought the product.

Safety warnings

Important Safety Information: Handle the Smart Watch with care. They contain sensitive electronic components, including batteries, and may malfunction, affect performance, or cause damage if dropped, burned, punctured, crushed, disassembled, or exposed to excessive heat, liquid, or high-pressure environments. concentrations of industrial

chemicals, including nearly evaporated liquefied gases such as helium. Important Safety Information: Handle the Smart Watch with care. They contain sensitive electronic components, including batteries, and may malfunction, affect performance, or cause damage if dropped, burned, punctured, crushed, disassembled, or exposed to excessive heat, liquid, or high-pressure environments. concentrations of industrial

chemicals, including nearly evaporated liquefied gases such as helium. Do not use the Smart Band if it is damaged. Batteries: Do not try to replace the battery of the Smart Watch by yourself, as you could damage the Smart Watch and cause overheating and injury.

Charge: Charge the Smart Watch with the charging cable and a power adapter or a computer, charge the device only with an adapter that meets relevant national, international and regional safety standards. Other adapters may not meet applicable safety standards and their use to charge the Smart Watch may present the risk of injury or death.

Using damaged cables or chargers, or charging the device if they are wet, may cause fire, electric shock, injury, or damage to the case or other belongings. Prolonged exposure to heat: Avoid prolonged skin contact with the device, power adapter, charging cable and its connector, or the wireless charger when connected to a power source, as this may cause discomfort or injury. Choking hazard: The Smart Watch and the small parts included may present a choking hazard to small children or cause other injuries.

Always keep them out of the reach of children. Interference with medical devices: The Smart Watch and charger contain components and radios that emit electromagnetic fields. These electromagnetic fields and magnets that the device may contain may interfere with the operation of pacemakers, defibrillators, or other medical devices. Keep a safe distance between the medical device and the Smart Watch. Request specific information about the medical device from the manufacturer and your doctor. Stop using the Smart Watch if you suspect it is interfering with your pacemaker, defibrillator, or other medical device. Skin irritations: The Smart Watch can cause skin irritation if not cleaned properly. Regularly clean the Smart Watch with a soft, lint-free cloth. In the event of any type of skin reaction, stop using the Smart Watch. If the problem persists, see your doctor. Electrostatic discharges: When using the Smart Watch in areas where the air is very dry, it is easy to accumulate static electricity, so you may feel a small electrostatic discharge from the Smart Band on your wrist. To minimize this risk, avoid using the Smart Band in extremely dry environments, or touch a grounded, unpainted metal object before putting on the Smart Watch. Important Driving information: Discoloration of the connector and the bottom of the Smart Watch after continued use is considered normal. Dirt, debris, and exposure to moisture could cause discoloration.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
