### • Bluetooth Mode

1. The Bluetooth version of this device is Bluetooth 5.0, supporting HSP, HFP, A2DP, and AVRCP protocols. The Bluetooth device name is HUABAO-A101.
2. Turn on the speaker power. After the machine is turned on and there is no music media connected, the machine will default to Bluetooth mode. You will hear: "Bluetooth Mode". Open your phone, enable Bluetooth mode, find HUABAO-A101, select to pair and connect. When Bluetooth connection is successful, you will hear: "Bluetooth Connected". It means music is ready to play from the speaker.

### • TF/USB Mode

1. After the machine is turned on, insert a TF card or USB flash drive. The machine will prioritize playing songs from the TF card or USB flash drive.
2. When removing the TF card or USB flash drive, the machine will automatically enter Bluetooth mode.

### • Audio Input (AUX)

Insert an audio input cable while the machine is on, and the machine will automatically enter AUX mode.

### • FM Mode

While the machine is on, press the "Mode" button to enter FM mode. You will hear: "FM Mode." The machine enters radio mode, long-press the play/pause button to automatically search for stations, and press "Previous Track" or "Next Track" to switch channels.

### • Charging

1. Insert the charging cable into the speaker and connect it to a DC5V charger to charge the speaker.
2. The speaker is charging when the red light is on. The red light turns off when the speaker is fully charged.

-6-

### • Specifications

Speaker Output: 15W	Charging Parameters: 5V-1A (or above) charger
Speaker Impedance: 3Ω	Charging Time: around 4 hours
Signal-to-Noise Ratio: ≥ 70dB	Battery Capacity: 3600mAh
Bluetooth Version: Bluetooth 5.0	Product Dimensions: 10.6x7.5x14.57 inches
Bluetooth Range: 8-12 meters (unobstructed)	Product Net Weight: 3.3 lbs
Power Supply: 3.7V lithium battery

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

The device has been evaluated to meet general RF exposure requirements, the device can be used in portable exposure condition without restriction
