

Instructions for use

Thank you for purchasing and using this product! In order to give you a better experience, please read the manual carefully.

Product Specification:

Product name	HT 28
Bluetooth version	v5.3
Product compatibility	Android/Apple
Transmission distance	10-15M
Trumpet	13 composite membrane speakers
Power consumption	10mAh
Range	5H
Charging case battery life	16H+
Standby time	720H
Charging time	1.5H
Battery capacity	35mAh*2
Battery capacity	300mAh
Charging interface type	Type-c
Charging voltage	5V/1A
Color	Gun color silver

Accessories List :

How to Use :

Turn on the device's Bluetooth and headset charging box to enter the pairing mode. Click the headset pairing name found by Bluetooth to pair. The headset will display a prompt tone to indicate successful pairing. If the headset is not paired successfully within 5 minutes, it will turn off automatically.

FCC Caution:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
