"This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation."

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help.

FR

Cet appareil est conforme à l'article 15 du Règlement de la FCC. Son utilisation est soumise aux deux conditions suivantes: (1) cet appareil ne doit causer aucune interférence nuisible, et (2) cet appareil doit accepter toute interférence reçue, y compris les interférences susceptibles de provoquer un fonctionnement indésirable.

**Remarque:** Cet appareil a été soumis à des tests et jugé conforme aux seuils pour un appareil numérique appartenant à la Classe B, conformément à la Partie 15 des Règles FCC. Ces seuils ont pour but de garantir une protection suffisante contre les interférences nuisibles dans une installation domestique. Cet appareil produit, utilise et peut diffuser des ondes radio et peut provoquer des interférences nuisibles avec les communications radio s'il n'est pas installé ni utilisé conformément aux instructions. Il n'y a toutefois aucune garantie que les interférences ne se produiront pas dans une installation donnée. Si cet appareil provoque des interférences perturbant la réception du signal de télévision ou radio, ce que vous pouvez vérifier en le mettant hors tension et en le rallumant, nous invitons l'utilisateur à corriger les interférences en essayant une ou plusieurs des solutions suivantes: - Réorientez l'antenne de réception ou changez-la de position. - Augmentez la distance de séparation entre l'appareil et le récepteur. - Branchez l'appareil sur une prise reliée à un autre circuit que celui auquel le récepteur est raccordé. - Contactez le revendeur ou un réparateur TV/Radio pour obtenir de l'aide.

ES

Este dispositivo cumple con el apartado 15 de las Normas de la FCC. Su funcionamiento está sujeto a las dos condiciones siguientes: (1) este dispositivo no debe causar interferencias perjudiciales y (2) debe aceptar cualesquiera interferencias recibidas, incluidas aquellas que puedan causar un funcionamiento indeseado.

**Nota:** Este equipo ha sido probado y se encontró que cumple con los límites para un dispositivo digital de Clase B, en cumplimiento de la Parte 15 de las Reglas de la FCC. Estos límites están diseñados para proporcionar protección razonable contra interferencias dañinas en una instalación residencial. Este equipo genera, utiliza y puede irradiar energía de radiofrecuencia y, si no es instalado y utilizado de acuerdo con las instrucciones, puede causar interferencia nociva a las radiocomunicaciones. Sin embargo, no hay garantía de que no ocurra interferencia en una instalación particular. Si este equipo causa interferencia nociva a la recepción de radio o televisión, lo que puede determinarse encendiendo y apagando el equipo, se anima al usuario a intentar corregir la interferencia usando una o más de las siguientes medidas: - Reorientar o reubicar la antena receptora. - Aumentar la separación entre el equipo y el receptor. - Conectar el equipo a un tomacorrientes en un circuito distinto a aquel en donde está conectado el receptor. - Consultar al vendedor o a un técnico experto en radio-TV.
