

Mobile Smart Screen Specification

CPU	MTK8788 eight core 4*ARMA73@2.0GHz 4*ARMA53@2.0GHz
RAM	6GB
Harddisk	128GB
System	Android 12
Screen size	32inch
Resolution	1080x1920 IPS
Contact point	Fully fitted 10-point capacitive touch screen
Proportion	16: 9
Wi-Fi	Support
Multiple touch points	10
brightness	250-300cd/m ²
Color gamut	100%SRGB
refresh rate	60HZ
Camera	Built-in camera 5 million pixels
Microphone input	Supports external microphone input
interface	1 USB, 1 TYPIC, 1 HDMI IN
button	Power
Gravity sensor	Support 90°
Speaker	Bulidin 8Ω 5W*2
microphone	Built-in noise reduction MIC 4015
power supply	12V 15000MAH 7 hours battery life
Power Adapter	12V 8A
Bench	Removable base, 360° rotation adjustment, with lifting bracket
Operating temperature	0~50°C

Function

1. Structure: Gravity sensing switching between horizontal and vertical screens, front and rear angle adjustment, with silent pulleys, lifting 150mm
2. Screen projection: Supports wireless transmission of iOS, Android, and system images to the big screen.
3. Wireless projection of videos, pictures and documents: Push videos or pictures from the mobile phone to the smart screen in real time. Wireless projection of documents only supports Android phones.
4. Application download: Download and use a large number of applications through the application treasure, just like the functions of a mobile phone, you can browse short video platforms such as Douyin, Kuaishou, etc.

Precautions:

1. Please read all instructions carefully before using this product.

2. When cleaning the mobile screen, please unplug the power cord and turn off the power switch.

Do not use liquid cleaning fluid or spray cleaner, wipe the screen with a soft damp cloth if

It's still not clean, use LCD screen cleaner.

3. Do not use accessories not recommended by the manufacturer, otherwise it may cause danger. 4.

When unplugging the power cable of the basic power interface or power adapter, please

Press and hold the power plug. Do not pull the power cord directly to unplug it.

5. This mobile monitor may only be operated with the type of power source stated on its nameplate.

If you have questions about the type of power supply you are using, please consult your mobile display dealer or your local power supply bureau.

6. Due to high voltage or other dangers when opening or moving the chassis, please do not repair it yourself. Please contact qualified maintenance personnel for comprehensive repairs.

7. When the following situations occur, first unplug the power plug or power plug of the bottom battery assembly from the socket, and contact qualified maintenance personnel for repair:

- a. The power cord or power plug is damaged or worn.
- b. The monitor has fallen off or the casing is damaged.
- c. When obvious abnormalities are displayed, it means repair is needed.

8. Please place the monitor in a well-ventilated environment, away from strong light, strong high temperature or strong humidity.

9. Please store the display at room temperature of $0^{\circ}\text{C}\sim 40^{\circ}\text{C}$, if it exceeds this range, it may affect

Normal use.

safety warning! (stability hazard)

The monitor may fall, causing serious personal injury. Many injuries, especially among children, can be avoided by taking simple preventive measures, such as:

- Use the cabinet, rack, or mounting method recommended by the monitor manufacturer. -Please use furniture that can safely support the monitor.
- Please educate children about the dangers of climbing on furniture to gain access to the monitor or its controls.
- Be sure to organize wires and cables connected to the monitor so they cannot be tripped over, pulled down, or grabbed.
- Never place the monitor in an unstable or tilted position.

-If you want to place the monitor on higher furniture (such as a cabinet or bookshelf), you must repair

Place furniture and monitors on a suitable support point.

-Do not place the monitor on cloth or other items between the monitor and supporting furniture.

-Do not place toys, remote controls, and other items that may tempt children to climb onto the monitor or the furniture on which it is placed. To retain and relocate existing monitors, the same precautions as above should be taken.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 25mm between the radiator and your body.
