TWS Wireless audio manual

Please read the instruction carefully and keep it properly before using the product

Thank you for purchasing our products. Please read it carefully before using it. Please keep this manual for reference.

Functional features:

1. Wireless music playback, Wireless calling,
2. TWS series box function
3. Chinese-english switch
4. Magnetic horn in full frequency band, with clear sound and deep bass
5. Built-in large capacity polymer aluminum battery
6. Low voltage intelligent detection and charging reminder
7. Energy-saving and environmental protection function (automatic shutdown after 5 minutes without connection)

Technical parameters:

Product model:
Wireless pairing name:
Wireless version :5.0
Transmission distance: ≥10m
Input voltage: dc-5.0v /500mA
Output power: 3W

The speaker specification: 38 mm inside 4 Ω 3 W
Frequency response: 20Hz-20KHz
Signal to noise ratio: ≥ 75dB
Product size 50*46*40mm¹

Function description:

- **Start up:** long press the "switch" button to start up for 3 seconds, and the blue light of the work indicator flashes quickly.

- **Low voltage automatic detection function:** this machine has low voltage automatic detection function, when the voltage is lower than The warning line will remind you to charge.

FCC COMPLIANCE STATEMENT:

This device complies with part 15 of the FCC Rules.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure conditions without restriction.
