Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.</p> <p>This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> <li>- Reorient the receiving antenna.</li> <li>- Increase the separation between the equipment and receiver.</li> <li>- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.</li> <li>- Consult the dealer or an experienced radio/TV technician for help.</li> </ul> <p>Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.</p> <p>The distance between user and products should be no less than 20cm The EUT is in door use only</p>
Power on	1. Long press for 2s																																																													
Power off	2. Take the earbuds out of charging case																																																													
Play/Pause	1. Long press for 5s																																																													
Previous song	2. Put the earbuds into charging case																																																													
Next song	Single tap																																																													
Answer call/Hang up	Double tap(Master earbud)																																																													
Reject call	Double tap(Slave earbud)																																																													
Voice assistant	Single tap
