The image displays two views of a mobile phone motherboard. The left view shows the front side, featuring a central Qualcomm processor (IPQ5322), a large memory chip (62H85206C), and various other integrated circuits and components. The right view shows the back side of the motherboard, highlighting the Qualcomm processor (IPQ5322) and other components. The motherboard is populated with numerous surface-mount components, including capacitors, resistors, and integrated circuits, all soldered onto a complex circuit board.
