

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and
Board View 1**

**Solder
Board-Component
View 1**

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, likely a mobile phone's mainboard, resting on a blue textured surface. The component is irregularly shaped with various electronic components and solder joints visible. It is positioned next to a black L-shaped ruler for scale. The ruler has white markings in millimeters and centimeters. The component is oriented horizontally, with its longer side parallel to the top edge of the frame.
Solder Board-Component View 3	 A photograph of the same green PCB component from a different perspective, showing the underside or a different side. The component is more complex, with many more components and solder joints visible. It is positioned next to a black L-shaped ruler for scale, similar to the first view. The component is oriented horizontally, with its longer side parallel to the top edge of the frame.

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, identified as 'View 4'. The component is rectangular with a complex shape, featuring several integrated circuits, resistors, and other electronic components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately 40 mm in width and 20 mm in height.
Solder Board-Component View 5	 A photograph of the same green PCB component, identified as 'View 5'. This view shows the component from a different angle, highlighting its profile and the solder joints. It is placed on the same blue textured surface next to the same black ruler. The component's width is approximately 40 mm, and its height is approximately 20 mm.

Solder Board-Component View 6	 A photograph of a small green printed circuit board (PCB) component, likely a solder board, placed on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is small and rectangular, with various electronic components and solder joints visible.
Antenna View	Div Ant. WIFI/BT/GPS Ant  GSM/WCDMA/LTE Main Ant. A photograph of the back of a smartphone, showing the internal components and the antenna layout. The phone is placed on a blue textured surface. Three red boxes with labels point to specific antenna locations: 'Div Ant.' (Diversity Antenna) at the top left, 'WIFI/BT/GPS Ant' (Wi-Fi/Bluetooth/GPS Antenna) at the top right, and 'GSM/WCDMA/LTE Main Ant.' (GSM/WCDMA/LTE Main Antenna) at the bottom center.
