

Change Statement

Name of manufacturer: Amptek Technologies Inc.

Address: 40 Vogell Road, Unit 28 Richmond Hill ON L4B3N6 Canada

Product Name: IOT Module

Model Number: VIC100

This update is based on the original FCC certificate:

Original Name of manufacturer: Amptek Technologies Inc.

Original Address: 40 Vogell Road, Unit 28 Richmond Hill ON L4B3N6 Canada

Original Product Name: IOT Module

Original Model Number: VIC100

Original FCC certificate number: 2BK6VVIC100 issuing date:2024.10.28

Due to the update of FCC RF exposure standard, we need to update FCC RF exposure to KDB 447498 D04V01. And according to the actual use requirements, the duty cycle has been included in the MPE calculation. When the actual sample is shipped, the duty cycle will not exceed the duty cycle used in this RF exposure. We have updated the report according to the new standard.
