

4-in-1 Wireless Charger

I . Product Description

4-in-1 Magnetic Wireless Charger Built-in fast charging chip, intelligent identification of models, matching wireless fast charging. The wireless charger is compatible with different power devices 5W/7.5W/10W/15W(MAX), can charge your cell phone, headphones, watch at the same time. easy to store, strong magnetic suction to prevent your mobile device from falling off.

II . Specification

Product Name:	4-in-1 Wireless Charger
Usage Method:	Magnetic suction
Material:	Plastic
Interface:	Type-c
Input Current:	9V1.6A
Phone Output:	15W/10W/7.5W/5W
Watch Output:	2.5W
Headphone Output:	5W
Adapter:	≥QC3.0 18W
Dimensions:	63*18MM
Compatibility:	Supports Qi-compatible smartwatches, headphones
Product List:	Wireless Charger x 1

III. Operational steps

1. When charging other devices wirelessly, please charge this product through the equipped charging cable first.
2. for cell phones, iwatch or bluetooth headset and other devices charging, put the device on the charging area, after 0.1 seconds, it will start to charge the device; when it is fully charged, you can remove the device; during the charging process, if you need to terminate it, you can remove it directly.

FCC Warning

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
