

CX2

Fingerprint & RFID Time Attendance

User Guide

Before Starting

Hardware Safety Instructions

Observe the following instructions to use the product safely and prevent any risk of injury or property damage.

Do not use oily water or sharp objects to stain or damage the display screen.

Fragile parts are used in the equipment, please avoid operations such as falling, crashing, bending or heavily pressing.

The optimal working environment of CX2 is indoor. The device function fully under temperature: $-10^{\circ}\text{C}\sim 50^{\circ}\text{C}$ ($14^{\circ}\text{F}\sim 122^{\circ}\text{F}$), The best performance is between: $15^{\circ}\text{C}\sim 32^{\circ}\text{C}$ ($59^{\circ}\text{F}\sim 89.6^{\circ}\text{F}$). The device will be less effective if exceeds these ranges.

Please gently wipe the screen and panel with soft materials. Avoid scrubbing with water or detergent.

The recommended power of CX2 terminal is DC 12V ~ 1A. The device will function less effective in case the power supply cable extends too long.

ANVIZ Terms & Policies

Before using all ANVIZ products, please read all applicable terms rules, policies and usage provisions found at www.anviz.com/privacypolicy and www.anviz.com/anviz-biometric-data-retention-policy.

By using your ANVIZ products, you agree to be bound by the ANVIZ Terms & Policies.

Packing List

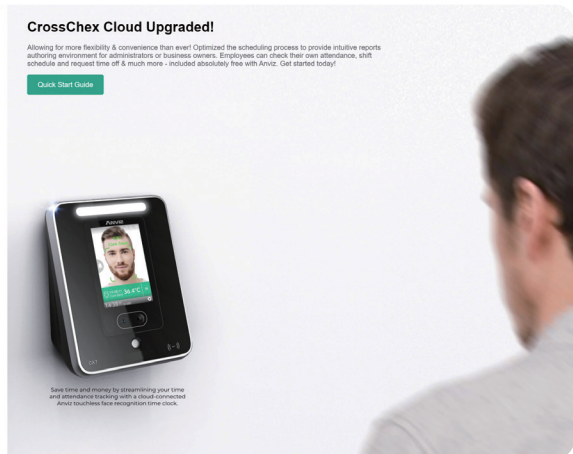

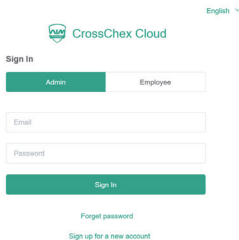

Product introduction

1. Create CrossChex Cloud Account

Before setting up your new CX2, it's necessary to create a CrossChex Cloud Account.

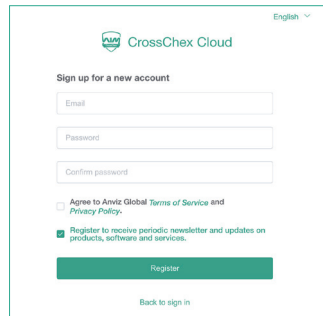

CrossChex Cloud is a cloud-based time and attendance management system, you can use it anywhere over internet with any internet browser. Open your web browser and visit <https://us.crosschexcloud.com> Then click "Sign up for a new account"

Please fill the E-mail and Password fields, We suggest read Terms of Service and Privacy Policy.

Then fill the **"Agree to Anviz Global Terms of Service and Privacy Policy."** box to continue.

Click Register to proceed.

Notice:

The **"Register to receive periodic newsletter and updates on products, software and services"** is optional, feel free to choose it or not.

2. Pre-Setting your CrossChex Cloud

Use the same e-mail and address you Created to Log In.

CrossChex Cloud will forward you to the pre-settings pages to fill the basic information. Please make sure to fill them correctly, especially the Time Zone field, it will be used as reference to synchronize your Time Clock devices with the correct date and time.

4. And press M button to device menu by input the default Admin ID and Password.

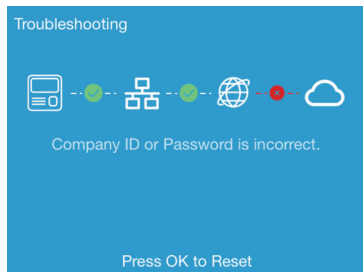

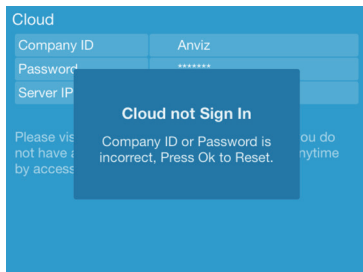

Default Admin ID: 0 Password: 12345

Notice: Please change the default password from the Cloud software for security concerns.

4.FAQ

The Time Clock cloud not sign in the CrossChex Cloud

The screenshot shows the "System Information" page in the CrossChex Cloud interface. The page has a green header with navigation tabs: Dashboard, Organization, Attendance, Record, System (selected), Anviz Global Inc., and Admin. A left sidebar contains links for System Information, Admin Role, Admin User, and Holiday. The main content area is divided into two columns. The left column contains a "Logo" section with a circular logo placeholder, an "Upload" button, and an "Organization QR Code" section. The right column contains a form for system information with fields for Company ID, Connection Password, Company Name, Company Address, Country, State, and Phone Number. The "Company ID" and "Connection Password" fields are highlighted with a red rectangle. At the bottom right of the form are "Cancel" and "Confirm" buttons.

1. Press OK to reset the Company ID and Password in the Time Clock.
2. Please make sure to fill the correct Company ID and Password. The Company ID and Password can be found in the Settings tab of your CrossChex Cloud Account.
3. If you do not have an account yet, please check <Creat CrossChex Cloud Account> of this manual.

The Time Clock connect CrossChex Cloud Timeout

1. Press OK to Network Troubleshooting.

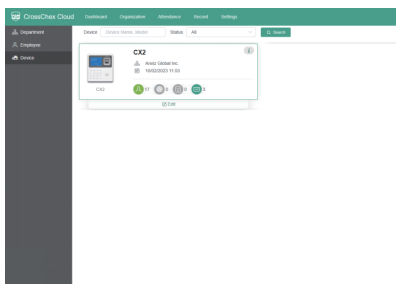

2. **Network Connection Failed.** Press OK to reset the network.

Notice: Please check for Physical Connectivity Issues. For wired connections, check the Ethernet cables that connect to your router. And the network setting is correct include the IP, Gateway and DNS

3. **No Internet Access.** Press OK to reset the network.

Notice: Please check the time clock network setting. Include the IP, Gateway and DNS. If you're on a Wi-Fi network, you should know that the connection performance depends on the distance between your wireless access point and your device.

How to change the Time Clock default Password

1. Select the Time Clock in the Device Tab of your CrossChex Cloud and click "Edit" to change the device Admin Pin Code.

2. The Admin Pin Code is a numeric-only password at maximum 6 digits.

5. Time Clock Installation

Installation Diagram

1. Drill outlet hole on the wall for device wiring and 4 screw holes on the wall according to the mounting bracket.
2. Use the screws to fix the mounting bracket on the wall. Use the screwdriver to tighten the screw follow the direction indicated, to complete the installation.

6. Support

Congratulations! You've done the all configurations! If you need more support we suggest visiting Anviz Community community.anviz.com, a platform for sharing your Anviz products' experiences and interacting directly with Anviz employees.

Warranty and Disclaimer

Anviz warrants that the hardware will be free from material defects in materials and workmanship and will substantially conform to the applicable Documentation in effect as of the date of manufacture for a period of three (3) years from the date of shipment by Anviz ("Warranty Period"). For more warranty information about this product, please visit www.anviz.com/warranty-policy

Shipping Fees

End Customer is responsible for the shipping fee for sending the product to Anviz, and the return shipping fee for sending the product back to customers is borne by Anviz (paying for one-way shipping). However, if the device is considered as No Fault Found, which means the device works normally, the returning shipment, too, is borne by End Customer (paying for round-trip shipping)

Return Merchandise Authorization ("RMA") Process

Please fill out the Anviz RMA request form online <https://www.anviz.com/form/rma.html> and ask technical support engineer for an RMA number. You will receive the RMA confirmation with RMA number in 72 hours, after receiving an RMA number, please send the product in question to Anviz by following the Anviz shipment guide. When the inspection of the product is completed, you receive an RMA report from technical support engineer. Anviz decides to repair or replace parts after user confirmation. When the repair is completed, Anviz notifies user of that and sends the product back to you. An RMA number is valid for two months from the date of its issuance. An RMA number that is more than two months old is null and void, and in such a case, you need to get a new RMA number from Anviz technical support engineer. Products without a registered RMA number will not be repaired. Products shipped without an RMA number may be returned, and Anviz will not be held responsible for any loss or other damage caused by this.

©2023 Anviz Global Inc. All Rights Reserved.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
