Battery standby time	150 days	Connection distance	≤ 10m
Battery life	3 years	Battery capacity	≤ 180 mAh
Charging port	USB-C	Keyboard lifetime	3 Mio. keystrokes
Charging time	2-3 hours	Charging current	≤ 200 mA

Multifunction key: Press the Fn combination

Set up the connection:

1. Start your keyboard by pressing the "ON/OFF" button.
2. Turn on the Bluetooth connection on your iPad.
3. Press "Fn" + "C" to put the keyboard into pairing mode.
4. Select the "DEQSTER Keyboard" from the available Bluetooth devices.
5. Enter the displayed numerical code via the keyboard and confirm it with the Enter key.
6. Your keyboard is connected.

Connection problems and solutions:

- Make sure that the keyboard is turned on.
- Make sure the keyboard is within the maximum Bluetooth range of the iPad.
- Make sure the battery is charged.
- Check if the Bluetooth function on your iPad is turned on.
- Make sure the keyboard is connected to the iPad via Bluetooth.
- Make sure the keyboard is successfully paired with your iPad.

Standby mode:

If the Keyboard is not used for about 10 minutes, it will enter Stand-By Mode. Press any key for 3 seconds to reactivate the Keyboard.

Cleaning:

Clean this product only with a lint-free, dry cloth and do not use any aggressive cleaners. Make sure no water gets into the product.

Troubleshooting:

- Make sure the Keyboard is turned on.
- Ensure the Keyboard is within the maximum Bluetooth range to the device.
- Make sure the battery is sufficiently charged.
- Ensure that the Bluetooth functions on the iPad and on the Keyboard are activated.
- Make sure the Keyboard has been successfully paired.

Safety and Disclaimer:

The keyboard is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack experience or knowledge, unless they have been given supervision or instruction concerning use of the keyboard by a person responsible for their safety. Children should be supervised to ensure that improper use of the keypad is prevented.

Never attempt to open the device to carry out repairs or modifications. Avoid contact with the mains voltage, the device is only de-energized when the plug is disconnected. Do not short-circuit the product. Do not charge the device during thunderstorms. Remove the charging cable after charging is complete. Protect it from high humidity, water and snow. Do not bring the device into contact with liquid.

Keep the device away from extreme temperatures. Do not expose the device to sudden temperature changes or strong vibrations, as this could damage the electronic parts. Check the device for damage before use. The device should not be used if it has been subjected to an impact that has resulted in visible damage or if it has been damaged in any other way. Do not use the device for purposes other than those described in the instructions.

Any repair or modification to the device that is not carried out by the original supplier will invalidate the warranty or guarantee claims.

The device specifications may change without prior notice.

Recycling:

Follow the European WEEE Directive for proper recycling and disposal of electrical and electronic devices.

Compliance:

DEQSTER GmbH declares that the device complies with the essential requirements and other relevant provisions of Directive 2014/53/EU. A complete Declaration of Conformity can be obtained on our website: www.deqster.de

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

IC Warning

- English: This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

- French: Cet appareil contient des émetteurs/récepteurs exemptés de licence qui sont conformes aux RSS exemptés de licence d'innovation, sciences et développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes:

1. Cet appareil ne peut pas causer d'interférences.
2. Cet appareil doit accepter toute interférence, y compris les interférences qui peuvent causer un fonctionnement indésirable de l'appareil.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

L'appareil a été évalué pour répondre aux exigences générales d'exposition aux radiofréquences. L'appareil peut être utilisé en condition d'exposition portable sans restriction.

This equipment should be installed and operated with minimum distance 0cm between the radiator & your body.

Cet équipement doit être installé et utilisé à une distance minimale de 0 cm entre le radiateur et votre corps.
