

## User's Manual for:

- Lotus Ring:
  - Model TX0001-01
  - FCC ID: 2BLAV-TX01
- Lotus Switch Cover:
  - Model RX0001-01
  - FCC ID: 2BLAV-RX01
- Lotus Ring Charger:
  - Model CX0001-01

## In the box

Your Lotus Kit includes:

- 1 waterproof gunmetal gray Lotus Ring in your selected size
- 3 white Lotus Switch Covers
- 1 charging platform for your Lotus Ring
- 1 USB-C charge cable that can be used for the ring charger or the switch cover
- 1 USB-C charger

## Setting up your Lotus Devices

### Charging

- Before using your Lotus Ring and Lotus Light Switch, please charge them.
  - For the Ring:
    - Using the provided USB-C cable, connect your Ring Charger to the USB-C charger
    - Place the Ring on the charger; magnets will help orient the ring correctly for charging
    - The Ring has completed charging when the red light is always on
  - For the Switch Cover

- Using the provided USB-C cable, connect your Switch Cover to the USB-C charger
- The Switch Cover has completed charging when the red light is always on

## Installing your Switch Cover

- The Lotus Switch cover magnetically attaches to the screws on a standard wall light switch plate. Orient the switch cover so that the Lotus logo is on the lower side.

## Using your Lotus Devices

### Using your Lotus Ring

No set-up is required to pair your Lotus Ring with the Lotus Switch Covers. Simply put the Lotus Ring on either index finger with the clear window facing up and the button facing your thumb.

- To turn the light switch on or off, point the clear window at the switch and press the button with your thumb.
- To charge the ring, plug the charger into a USB power source and place the ring on the charger. The Ring has completed charging when the red light is always on.
- To update the firmware on the ring, place the ring on the charger and connect to the Lotus app on your phone.

### Using your Lotus Switch Cover

- Your Lotus Switch Cover allows you to maintain manual control of your light switch. Simply press the Lotus Logo on the button to turn the light on and off.
- To charge your Lotus Switch cover, plug it into a USB charger. The Switch Cover has completed charging when the red light is always on.
- To update the firmware on the Switch Cover, plug it into a USB power source and connect to the Lotus app on your phone.

# FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
  - (1) This device may not cause harmful interference.
  - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## Note:

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.
