THAW

PERSONALIZED WARMING

Thaw Bluetooth™ enabled heated insoles provide app-controlled warming for your feet. They are fully adjustable to keep you completely comfortable...no matter what temperature you select.

NOTE: Product is not waterproof. Please take appropriate precautions

FROM YOUR FINGERS...TO YOUR TOES

The intuitive Thaw App allows you to independently, or simultaneously, warm both insoles. The computerized thermostat maintains your desired temperature. It also allows you to:

- Simple pairing and product registration
- Continuous battery life monitoring
- Localized weather forecasts

CUSTOMIZED COMFORT

Designed to fit directly into any shoe or boot, Thaw Heated Insoles provide constant, controlled comfort for your feet.

PACKAGE CONTENTS

 1 Bluetooth Enabled Insole	 1 USB Dual-Charging Cable (With Adapter Included)

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.
