

The KRUSEGO Multilingual System

OPERATING INSTRUCTIONS

PLEASE READ THIS IMPORTANT INFORMATION BEFORE USING THE KRUSEGO SYSTEM

CHARGING THE KRUSEGO RECEIVERS

When charging the KRUSEGO Receivers, **ALWAYS ENSURE THE CASE IS OPEN.** If the case lid is closed during recharging the air movement restriction will cause heat build-up and result in overheating and render the system unusable.

Note: When charging, a red light glows in the headphone connector socket. When fully charged the red light goes out.

KRUSEGO RECEIVERS

When placing the KRUSEGO Receivers in and out of the recharger, they simply slot in with a **VERY GENTLE** push. Do not force the KRUSEGO Receivers into the recharger case as this will break the connectors in the base of the recharger case. **If a connector breaks it cannot be replaced easily.**

THE KRUSEGO TOUR MASTER

SETTING UP FOR EACH TOUR

1. Attach and lock the KRUSEGO Tour Master and suction mount to the vehicle windscreen by turning the levers on the base of the suction mount until they click and lock into place

2. Squeeze two of the vertical the X-GRIP levers to open the X-GRIP and insert the KRUSEGO Tour Master as demonstrated in the picture. Once released, the X-GRIP will hold the KRUSEGO Tour Master as shown in the bottom picture.

3. Turn on the KRUSEGO Tour Master using the ORANGE Power button at the bottom left of the keypad. The KRUSEGO Tour Master will now display "SYSTEM READY". Push the BLUE "TOUR" Button. The display will now read "SELECT TOUR" with the default "NONE". Push the ARROW UP button until the desired tour is reached. Press the PLAY/PAUSE Button and the display will now read "ON TOUR" for the selected tour. Shortly the screen will blink intermittently; this is "power save mode" to save battery power.

4. When the KRUSEGO Tour Master has obtained GPS lock, the GPS Icon at the top right of the screen display will change from GPS ✗ to GPS ✓.
5. When the KRUSEGO Receivers have been turned on, set to the required tour and languages, given to the passengers and the tour is ready to commence. (Instructions for setting up the KRUSEGO Receivers for a tour are on the following pages)

If the selected tour commences with manually triggered "INTRODUCTION" commentary, the procedure to manually play the Introduction commentary is as follows:

- Push the SAFETY button at the bottom right of the KRUSEGO Tour Master. If the display is flashing, the KRUSEGO Tour Master is in "power save mode". To activate and play an Introduction commentary in "power save" mode, push the Safety button 2 X until the display shows "Select Safety Msg". Use the ARROW UP and ARROW DOWN buttons to scroll through the list of manually triggered commentaries until the desired "INTRODUCTION" commentary is displayed.
- Firmly push the BLUE Play/Pause button ONCE to play the "INTRO" commentary. "Triggered" appears in the display to confirm the instruction to play the "INTRO" commentary has been transmitted to the KRUSEGO Receivers. Once activated, the KRUSEGO Tour Master Screen will revert to blinking and display "ON TOUR" and the selected tour and the GPS status.

GPS COMMENTARY TRIGGERING

When GPS Lock is obtained (GPS ✓) the KRUSEGO Tour Master will automatically send the instruction to the KRUSEGO Receivers to play the commentary relating to the vehicle's location as the vehicle passes through a GPS trigger point.

MANUAL COMMENTARY TRIGGERING

All manually triggered commentaries are stored under the SAFETY button. To activate ANY manually triggered commentary the procedure is basically the same as Step 6 above.

i.e. Push the SAFETY button at the bottom right of the KRUSEGO Tour Master. If the display is flashing, the KRUSEGO Tour Master is in "power save mode". To activate and play any manually triggered commentary when the KRUSEGO Tour Master is in "power save mode", push the Safety button 2 X until the display shows "Select Safety Msg". Use the ARROW UP and ARROW DOWN buttons to scroll through the list of manually triggered commentaries until the required commentary is displayed.

Once the required commentary is displayed, firmly push the BLUE Play/Pause button ONCE to play the selected commentary ("triggered" appear in the display to confirm the instruction to play the selected commentary has been transmitted to the KRUSEGO Receivers). Once activated, the KRUSEGO Tour Master Screen will revert to blinking and display "ON TOUR", the selected tour and the GPS status.

THE KRUSEGO RECEIVERS

SETTING THE LANGUAGE

1. Turn the KRUSEGO Receivers on by **SIMULTANEOUSLY** pushing the **MENU** and **POWER** buttons. The KRUSEGO Receivers screen will default to “Select Tour” and one of the tour names”.
2. Scroll through the tours using the volume up/volume down button until the desired tour is displayed. Then press the **MENU** Button to confirm the tour.
3. The screen will now display **SELECT Language** and the last language that the KRUSEGO Receiver was set too.
4. Use the “Volume Up” and “Volume Down” buttons to toggle though the languages until the desired language is displayed. Once the desired language is displayed, push the **MENU** button to confirm the language choice. The Kruse Receiver screen will display the word “**READY**” and is now set for the tour.

Note: If the receivers are collected back partway through the tour and placed back in the recharger they will automatically turn off. When resuming the tour, **STEPS 1 and 2** to set the language will need to be configured again.

SETTING THE VOLUME

1. To adjust the volume, use the Volume up and Volume down buttons. The Kruse Guide screen will display the volume level as it is changed
2. At the end of each tour, the Kruse Master Controller and Kruse Receivers are shut down either by holding the **POWER** button (the display will show “**SHUTDOWN**” and then count down 3 seconds before finally powering off) or simply place the Kruse Master Controller and Kruse receivers into the recharger and they will shut down automatically.
