

Modular Approval Request Letter

FCC ID: 2AIVAZLG9021

Data: 06.24.2016

Gentlemen:

There's a Bluetooth (Limited single modular) that would like to have your authorization as a modular approval.

The specific product as below, Bluetooth (Limited single modular), with its designed features and specified description, meets special requirements for full modular approval on FCC KDB 996369 v02 by cross-reference list below.

Company	Guangzhou ZLG MCU Technology Co.,LTD
Model Name	Bluetooth
Model Number	ZLG9021P0-1-TC, ZLG9021P0-1-WX
FCC ID	2AIVAZLG9021

Requirement of Public Notice	Reference to FCC PART 15
1. The modular transmitter must have its own RF shielding.	The module does not have its own RF shielding. Please see external photo.pdf
2. The modular transmitter must have buffered modulation/data inputs.	The modular has buffered data inputs; it is integrated in chip QN9021. Please see schematic.pdf
3. The modular transmitter must have its own power supply regulation.	All power lines derived from the host device are regulated before energizing other circuits internal to the ZLG9021P0-1-TC Please see schematic.pdf
4. The modular transmitter must comply with the antenna requirements of Section 15.203 and 15.204(c).	The ZLG9021P0-1-TC meets the FCC antenna requirements. It has a PCB antenna, Please see external photo.pdf
5. The modular transmitter must be tested in a stand - alone configuration, i.e., the module must not be inside another device during testing.	The ZLG9021P0-1-TC was tested in a stand-alone configuration via a PCMCIA extender. Please see conducted set-up photo.pdf and spurious set-up
6. The modular transmitter must be labeled with its own FCC ID number, and, if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	The label position of ZLG9021P0-1-TC is clearly indicated. Please see the label.pdf In the exhibition Users manual, there are instructions give to the OEM on how to label the end product.

7. The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	The ZLG9021P0-1-TC is compliant with all applicable FCC rules. Detail instructions are given in the Users Manual. Please see Installation guide.pdf
8. The modular transmitter must comply with any applicable RF exposure requirements. For example, FCC Rules in Sections 2.1091, 2.1093 and specific Sections of Part 15, including 15.319(i), 15.407(f), 15.253(f) and 15.255(g), require that Unlicensed PCS, UNII and millimeter wave devices perform routine environmental evaluation for RF Exposure to demonstrate compliance. In addition spread spectrum transmitters operating under Section 15.247 are required to address RF Exposure compliance in accordance with Section 15.247(b)(4).	The ZLG9021P0-1-TC comply with applicable RF exposure requirements. Please see RF safety evaluation. pdf

Thank you.

Sincerely,
