Welcome to use SGUAI G1100 Smart Water Bottle

**WARM TIPS**

- For the first time use, thoroughly clean the inner container and the cup mouth of the bottle with warm water or add some detergent.
- When cleaning, do not immerse the bottle body in water or boil it.
- There is a screen on the body of the cap lid, so please avoid dropping or violent collision.
- When the bottle is idle for a long time, remember to pour out the remaining water in the bottle.
- Before use, please charge the bottle first with the included Type-C cable. And then please download the SGUAI APP to complete the personalized settings for the smart water bottle.
- Before use, please download the SGUAI APP to complete the personalized settings for the smart water bottle.

**NOTICE:**

To install a mobile phone bound smart bottle, the following conditions must be met:

- The hardware of the mobile phone supports Bluetooth 4.0 or above.
- Android operating system must be based on Android 8.0 or above.
- iOS operating system must be based on 10.0 or above.

**DOWNLOAD THE APP**

Android/iOS version:

- Download our free SGUAI App from the APP Store or on Google Play.
- Check that you have an internet connection and your Bluetooth is turned on and enable location services (at least while using the app).
- Follow the steps in the app to create an account, set parameters for a personalized hydration goal, add your bottle to your profile, and set your water reminders.
- Set down your bottle on a flat surface after every refill and drink. Remember to sync the app near the bottle each day so your water is tracked correctly.

**NOTE:**

To install a mobile phone bound smart bottle, the following conditions must be met:

- The hardware of the mobile phone supports Bluetooth 4.0 or above.
- Android operating system must be based on Android 8.0 or above.
- iOS operating system must be based on 10.0 or above.

**STEP**
